University of Illinois at Urbana-Champaign

DEPARTMENT OF URBAN
AND REGIONAL PLANNING

1003 West Nevada
Urbana, Illinois 61801
(217) 333-3890

Dear Friends:

This is the 8th edition of the Alumni News. Like past editions, we hope that it will help to keep you in touch with the Department and your former classmates and friends. This year we've expanded the section about the year in review, hoping to give you a better feeling for the current life in the Department.

As this version of the Alumni News goes to press, we are concerned about the whereabouts of many of our alumni. We're doing our best to locate "lost" alumni, but we still had to include many "address unknowns" in this year's roster. As you read through the newsletter, will you please send us the address for any of the missing alumni with whom you are in contact. Also, if your address was wrong, and this was forwarded to you, will you please send us your new address.

As you'll read under the "Year in Review," we are making efforts to expand our contacts with alumni. One of the most enjoyable ways we've done this is through the receptions at the APA conferences. Our most successful reunion was at the APA conference in Miami, where more than 60 alumni attended a reception that John Quinn and I hosted in Room 701 of the Eden Roc Hotel. We plan to give repeat performances at the APA meetings in Baltimore and San Francisco. Since it is too early to give you the room number, please look for the notice we will post at each conference information exchange.

I hope you find the Alumni News informative. Let us know what else you would like to see included (or what we should delete) in future editions. The Alumni News could not have been produced without the efforts of Barbara Hartman, Jane Terry, John Page (MUP 1979, not John Page MUP 1977), Jon Rodgers, and Susan Safanie.

Just so there is no confusion, I should mention that this year the Department engaged in a search for a permanent head. I was offered and accepted the challenge and so the "acting" has been removed from my title.

Sincerely,

Carl V. Patton

THE FACULTY AND STAFF

.....

YEAR IN REVIEW

.....

This was an active and exciting year for the Department. Our proposed Ph.D. program that you've read about in previous editions of the Alumni News was finally approved by the University Senate, we formalized six areas of concentration in the graduate program, we established a departmental admissions committee, we've begun to consider the possibility of again offering all four years of the undergraduate degree program, we established both an elected departmental advisory committee and an outside advisory committee of practicing planners, we've taken steps to establish more ties with the alumni, Barbara Hartman developed and edits Planning Notes--an occasional in-house newsletter, we're looking into the possibility of offering an off-campus degree program, we obtained two computer terminals for the Department, and we've begun an all-out effort to recruit a few more excellent students to our undergraduate and graduate programs.

Our student body now totals 94: 50 graduate students and 44 juniors and seniors. As in past years, our students continue to be actively involved in the Department. They participate on faculty committees, their elected representatives attend the faculty meetings, they help in the recruitment of students and serve as hosts to potential students who visit the department. For the first time in recent years, the Student Planning Organization became an officially recognized campus organization and received \$500 from the Student Organization Resource Fund to develop a number of projects, including a community planning information service, additional job placement services for graduating students, and a film forum on the built environment. The students also participated in the orientation and advising of incoming students, provided a picnic for the new students, hosted winter and spring departmental dinners, and provided some of the most entertaining sports events of the decade--a skiing trip and basketball and tennis tournaments.

Our current and incoming students are also well prepared scholastically. Last year one student received a University fellowship, two received Graduate College fellowships, and one received a Creative and Performing Arts fellowship. This year one student will receive the University fellowship, three have won Graduate College fellowships, and again one received a Creative and Performing Arts fellowship. In addition to these awards, more than thirty of our students have either a teaching or research assistantship in our department or a research assistantship in another unit on campus. You might recall that our graduate students take an internship between their first and second years in our program. We've appended a list of the places where our students have been employed. Also, to give you an idea of the types of work being done by current students, we've appended a list of recent master's project/thesis topics.

We still continue to have a good record in the placement of our students. As far as I can determine all of last year's graduating class members that were seeking jobs in planning did find them. (In fact, a few landed jobs that made our faculty envious.) This year's class is also finding good job opportunities. In fact, last summer (and already this summer)

we received requests from potential employers to which we were unable to respond.

Our faculty continued to engage in a wide range of activities and to receive recognition from wide-ranging sources. Professors Forrest, Heumann and Freund were each rated by their students as outstanding teachers (through course evaluations conducted campus wide); John Kim was promoted to associate professor and granted tenure; Eric Freund's large scale development workshop in Tuscola, Lock Blair's historic preservation workshop in Champaign, and Barry Checkoway's workshop on neighborhood planning in South Austin (Chicago) were featured in the press; research grants were obtained by Professors Isserman, Kim, Checkoway, Quinn, Forrest and Patton. Emeritus Professor Louis Wetmore returned to teach a course on professional practice; Emeritus Professor Scott Keyes served on a thesis committee; Albert Guttenberg received a travel grant from the German Marshall fund to attend a conference on data management in Holland; Barry Checkoway testified before the House and Senate on citizen participation in health planning; Andrew Isserman continued as editor of the International Regional Science Review; John Quinn served as guest editor of the Journal of the Community Development Society (he was recently appointed as editor for a three-year term); and Barry Checkoway serves as deputy editor of the Journal of Voluntary Action Research.

We were fortunate to have had a number of guest instructors this year, including Heywood Sanders, from the Institute of Government and Public Affairs, who taught a course on the community development program; Marilyn Flynn, from the School of Social Work, who taught our introduction to social planning; Richard Gross, from the University of Wisconsin, who taught a course on neighborhood planning techniques; and George Provenzano, from the Institute for Environmental Studies, who taught a course on the economic analysis of plans and programs.

Zero-time appointments were approved for George Provenzano, from the Institute for Environmental Studies, and Lew Hopkins, from the Department of Landscape Architecture. Both persons teach courses that we cross-list with their major department, and George has taught one of Andy Isserman's courses while he has been on leave.

Several staffing changes are underway. David Berry, who was a visiting assistant professor for the past two years, will be joining Abt Associates in Cambridge. We'll miss him around here, especially his energetic guidance of masters projects. John Kim will be on leave next year as the principal planner and department manager of the task force that is planning the new capital city for South Korea, and Andrew Isserman will spend a year with the U. S. Census Bureau on a fellowship from the American Statistical Association. Andy will conduct research on improving population projection techniques. Both Professors Blair and Guttenberg will be on sabbatical during the fall semester. Lock Blair will conduct research on state initiatives in planning for the arts. Al Guttenberg will return to Holland to conduct research on land classification schemes. Several visitors will be joining the faculty to fill in for these people while they are away. David Prosperi, now at the Institute of Transportation Studies at the University of California, Irvine, will visit for a year and will teach John Kim's transportation courses and one of our methods courses. Charles Kirchner, from the Illinois

Department of Local Government Affairs will visit for the fall semester on a part-time basis to teach a course on land use planning. William Cahill (MUP 1979), will be a visiting instructor the fall semester and will co-teach the land use planning course with Charles Kirchner and will also offer a course on community development planning. We will again be able to enrich our teaching program with courses taught by visitors from other departments. We hope to have courses taught by faculty members from Geography, the Institute for Environmental Studies, the Institute of Government and Public Affairs, and Social Work.

This year we were again able to offer a special seminar on planning practice. Known around here as the "Superstar Seminar," the course featured several guest speakers, each of whom presented a seminar and held informal meetings with students and faculty for most of one day. A list of guest speakers and their topics appears in the appendix. We hope to offer such a course each year, as these guests were well received and added a great deal to the life of the Department.

I've tried to highlight the activities of the Department in this overview. While I don't dare try to cover all of them in detail, a few items deserve elaboration.

Ph.D. Program

Several years ago Mike Brooks, Bob Riley (Landscape Architecture), and Dan Slotnick (Computer Science) developed a proposal for a Ph.D. program in regional planning. Mike, Bob and Dan began the process of moving the proposal through the University bureaucracy. First approval was obtained from the Department faculty, then the College of Fine and Applied Arts courses and curricula committee, then the Graduate College. At this point several questions about program content, cooperation with other units and faculty involvement were raised. Mike Brooks began to answer these questions before he left for Iowa State. As acting head, I saw one of my major tasks to be that of moving the Ph.D. proposal forward. I am pleased to report that we were able to answer the questions raised by the Graduate College and Vice Chancellor for Academic Affairs, and the proposal moved on to the University Senate Educational Policy Committee. After several meetings with the committee, and of course after several revisions, the proposal went to the Senate. We were prepared to defend the merits of the proposal on the Senate floor. We had lined up key campus supporters who were ready to speak for the proposal, and we had our colleagues and friends present to vote for the proposal, in case a close vote called for a show of hands. Much to our surprise and pleasure, the proposal received unanimous approval; not one person spoke against it. Many thanks must go to our Department Senator John Kim, who informed his fellow senators about the proposal, and to Lew Hopkins, from the Department of Landscape Architecture, who chaired the Educational Policy Committee. I cannot forget the many hours spent on the proposal by Barbara Hartman and Jane Terry. Both typed, retyped, copied and recopied the proposal so many times that they can recite it from memory.

The next steps include submitting the proposal to the Board of Trustees and the Illinois Board of Higher Education and requesting funds to support the program. (The University Senate's approval was of the program content; this did not include an approval of funding.) We've submitted a funding

request which survived campus review. Now we have to wait to see what happens at the higher levels. We're planning to admit the first students in August of 1980.

The proposed catalogue description of the Ph.D. program is included in the appendix. If anyone wants a fuller description, just drop me a note.

Planning Council

For some time it has been clear that we need to develop closer ties to our alumni and to practitioners. One of the things we've done in this regard is to develop a Planning Council, a group of practitioners which will advise the Department on a variety of matters. The initial council was formed this spring, and is comprised of one person nominated by each section of the APA, one person nominated by the state Regional Planning Director's Association, one representative from state government, and one alumnus at large. The latter two persons are selected by the Department Head. The present size and composition of the Council reflects the need to keep travel expenses at a minimum and to let the committee develop its role. Perhaps in the future we will be able to expand the committee to include more persons from a wider geographic area.

The members of the committee include Joe Abel, representing the Metropolitan Chicago Section of APA; Mike Steele, representing the Greater Illinois Section of APA; Don Hann, representing the Regional Planners' Association; Laird Starrick, the representative from state government; and Mike Carroll, the alumnus at large. The addresses and phone numbers of these persons are included in the appendix, in the event that you care to contact them.

The Council's agenda for this year will include review and comment on our continuing education program and the undergraduate and graduate programs.

Off-Campus Degree Program

Some of you more recent alumni may recall that the Department has offered courses off-campus. Clyde Forrest was in charge of courses taught by members of the Department in Peoria and Chicago. These were non-credit courses geared primarily to the needs of entry-level practitioners. For some time we've felt a need to offer credit courses off-campus, and we've also recognized that there are people throughout the state who would like to attend our master's program but who cannot leave their jobs to attend a campus program. To address this need we are exploring the possibility of offering an off-campus degree program in Rockford, Illinois. Under the guidance of Barry Checkoway, we're exploring alternative ways that such a program might be organized. We are now working out the details with the University Office of Continuing Education. Participants in the program will receive a degree identical to that earned by students who attend the campus-based program. The courses will be taught by our regular faculty members who will fly to Rockford, but there may be some correspondence work and coursework via telecommunications. We will probably be able to offer more than half of the coursework required for the degree in Rockford, but we expect that the students will spend at least a summer and a semester in

residence at Urbana. If things go as planned, the first courses should be offered in Rockford in the spring semester of 1980. We are now conducting a market survey to determine whether there are enough potential participants to justify the program.

Advisory Committee

This year we established an elected three-person committee that is charged with advising the head on a variety of matters dealing with Department policy and with the administration of the Department. Members of this year's advisory committee are Clyde Forrest, Andrew Isserman and Barry Checkoway.

Alumni Relations

Although we are regularly in touch with many of our alumni, we want to find ways to develop closer ties. The new Planning Council is one attempt, and we're looking at the possibility of joining with the University Alumni Association to form an affiliated alumni association. Eric Freund is now looking into the pros and cons of such an arrangement. If you have any suggestions, please let him know. I hope we can eventually develop local alumni associations in those areas where we have a concentration of alumni. You'll be hearing more from us on this during the next few months.

Recruitment Efforts

You may recall that I wrote to each of you last fall to seek your assistance in recruiting students for our graduate and undergraduate programs. It is no secret that enrollment in planning programs is down all across the country. (The irony is that virtually all of our graduates are finding good jobs in planning; we often find ourselves in the position of having more jobs available than students.) This fall we will be entering a graduate class of twenty-five full-time students, plus several part-timers. To attract these students from our pool of applicants, we engaged in a vigorous effort of personal contact, and we shifted a number of teaching assistantships to these first-year students. The number of applicants to our program was 53 this year, down from 65 in 1978, 110 in 1977, 145 in 1976, and 190 in 1974 (our peak year).

I should point out that we did not lower our entrance standards although the pool of applicants was smaller than in past years. We merely worked harder to attract a larger percentage of the smaller number of highly qualified applicants. Whether we can continue to do this is an open question. We are now trying to increase the number of applicants to our program through the development of a new poster. (Eric Freund designed our new poster which includes a postage paid tear-off postcard for requesting more information about our programs.) We are also expanding our mailing of information about the program, and we will be paying personal visits to high schools and junior colleges. But we need your help too.

You can help, of course, by spreading the word about the Department. I hope this Alumni News will give you a better feel for the current state of the Department. We remain one of the top departments measured in terms of informal peer ratings, publications in quality journals by our faculty and

students, jobs being obtained by recent graduates, awards and recognitions received by our faculty members, etc. We also have perhaps the top planning library in the nation. You can help us retain this quality by encouraging promising students to apply to our program. If you would like posters or brochures about the program, please let me know, or send me the name and address of the potential applicant and we'll contact him or her directly.

Update on the Graduate Program

The master's degree is a two-year program with an optional internship during the summer between the first and second year. The program includes a core, with one course required each in Planning Theory, Planning Implementation, and Spatial Organization. Two courses in methods are required. In each area students select among several possible courses. Students concentrate in one or more of six areas, including land use, housing, historic preservation, social planning, transportation, and regional science. Within each concentration particular types of courses are required, including an introduction to the concentration, a methods course, a practicum or workshop, and electives. Each student is required to demonstrate that he or she can carry out an independent project. This project may take either the form of a formal thesis or a master's project. While comparable in quality, the master's project is more flexible in form, and might include the development of a simulation for the PLATO teaching computer, a film or videotape, or a physical model.

Update on the Undergraduate Program

Several years ago we switched from offering a four-year Bachelor of Urban Planning degree to offering the last two years of a B.A. in Urban Planning. This change recognized that most of our undergraduates were entering our program at the beginning of their junior year. Some of these students were transferring from other programs on campus, but many were entering from two-year colleges. After having experienced this program for several years, we are considering the possibility of revising the BAUP to permit freshmen level entry into the program, as well as junior-year entry. We will be studying this possibility during the upcoming year, but looking toward the eventual offering of such an option, we are introducing several new sophomore-level courses. Even if we do not move to a four-year track, there appears to be a need for additional freshman and sophomore level courses in planning.

Carl Patton

THE BUREAU

Staffing

While serving as acting head of the Department this year, I also continued as director of the Bureau of Urban and Regional Planning Research. John Quinn continued as associate director. My main concern was for the continuing development of the research program. John oversaw the continuing education and publications program. We were both assisted by Kathy Suits and Susan Safanie.

Research

Last year saw the big push to get the Department involved in research, and a number of projects were launched which continued into this year.

Continuing Projects

Professor T. John Kim continued work on his grant from the Champaign-Urbana Mass Transit District for a study of the Societal Costs and Benefits of the Mass Transit District.

Professor Romanos and Professor David Boyce (professor of Civil Engineering with a joint appointment in Urban and Regional Planning) continued work on their grant from the U. S. Department of Transportation, Urban Mass Transit Administration, Office of University Research. The project titled "Urban Transportation Energy Accounting" is an investigation of the direct and indirect energy consumed by all modes of transportation. The Chicago area is being used as a case study.

Professor Kim continued with Professors David Boyce, Frank Southworth (Civil Engineering) and George Provenzano (Institute for Environmental Studies) in a study of the ways in which Transportation Systems Management strategies can reduce air pollution. The Chicago metropolitan area is being used as a case example. The study is funded by the Illinois Institute for Environmental Quality, and the study team is working closely with the Chicago Area Transportation Study in conducting the research.

Professor Romanos completed his book on the problems of Western European cities. The project was supported in part by the Office of West European Studies.

New Projects

Several new research grants and contracts were received this year, and include:

Treatment of Suburbs. Andy Isserman received a contract from the Department of Housing and Urban Development to conduct a study of the treatment of suburbs under the Community Development Block Grant Program. (See Andy's blurb for more details and watch for his forthcoming publications on

the topic.) Other members of the project team included Albert Guttenberg and Marilyn Brown (from Geography). The project also supported several graduate research assistants, including Robert Gleissner and Nancy Ward from our Department.

A Guide to County Zoning. The Bureau's big sellers have included both the County and Municipal Guides to Zoning. The county guide has been out of print for a number of years, but thanks to the initiative of Clyde Forrest and John Quinn, the county guide will be updated and revised and will be re-named "Guide to County Land Use Controls." This project is being supported by a grant to the Bureau from the Illinois Department of Local Government Affairs and a summer appointment for Clyde from the Agricultural Experiment Station. Draft chapters for the revised publication formed the basis for the 1979 Summer Institute at the Wagon Wheel Resort in Rockton, Illinois. Bill Powers is the research assistant for this project.

Metropolitan Midwest Project. Barry Checkoway received one of four interdisciplinary planning grants awarded by the University. His grant will support the development of a seminar series on the problems of the metropolitan midwest. Barry will spend part of the summer identifying academics and practitioners who will take part in a fall seminar series. He will also put together background information and study materials on the topic. Some of the papers that will be developed for presentation in the seminar series will eventually become part of a book on the same topic.

Community-University Collaboration. Last year a class of Barry Checkoway's prepared a neighborhood development plan for an area of Chicago known as South Austin. The students' work was included in a proposal to HUD that won the neighborhood a grant. Part of the grant supported a research assistant (Bill Cahill) who together with Barry Checkoway prepared a report about the ways in which communities and neighborhoods can collaborate in research and planning projects.

Celebration of an Era. The Illinois Humanities Council has awarded the Department a fifteen-month grant to support the development of a traveling exhibit that will depict visually, orally and in writing the contribution that public works projects have made to the history and culture of the state. The exhibit will focus upon the PWA, WPA, and CCC era, and will include examples of public art (murals and sculpture), public buildings, open space and recreation, and literature. Departmental participants in the project will include Lock Blair, Eric Freund, Al Guttenberg, and Carl Patton. The project will also support several graduate research assistants. Carl Patton is the principal investigator.

Continuing Education

Professor John Quinn directed our continuing education program and organized the Basic Community Planning Course held in the Spring. Members of the Department comprised the core faculty for this course. Professor Howard Roepke from the Department of Geography directed the Basic Industrial Development Course in the Fall. Both events were held at the Allerton House Conference Center near Monticello.

Professor Clyde Forrest hosted the 1979 Summer Institute. The two-day

conference focused on both basic methodology and contemporary issues in land use planning and zoning practice. The conference was held at the Wagon Wheel Resort in Rockton, Illinois.

Two hundred individuals have participated in the 1978-79 continuing education program. These students came from 18 states plus Canada and included people from as far east as New York, as far west as Colorado, as far south as Louisiana, and of course our Canadian attendees win the award for coming from the farthest north.

In addition to four organized events, Professors Patton and Quinn provided informal planning assistance to civic groups in Urbana, Champaign, Tuscola, DeKalb, Bloomington, Taylorville, and Pinckneyville.

Publication

Proceedings of the 1978 Summer Institute were published as "Planning for Neighborhoods, Cities and Regions," edited by Clyde Forrest. The 1978 Winter Conference proceedings, edited by Professor Lachlan Blair, were published as "Planning for the Arts . . . Magic to Stir Men's Blood." Professor Albert Guttenberg served as editor of Planning and Public Policy. Articles this year included "Orderliness and Participation in Regional Design: The Case of the Dutch Ijsselmeerpolders" by Claude Winkelhake, "Overcoming the Dual Housing Market through Affirmative Marketing" by Dudley Onderdonk, "Rationalizing the Railroads: A New Planning Process" by James M. Friedlander, and "Downtown Redevelopment in Five Cities" by David Berry et al.

Conclusion

In closing I should note that the Departmental Planning Council will assist us in expanding the research and public service efforts of the Bureau, but we also would like to have your direct input. Are their continuing education programs that we should provide? What about conference topics? Do you have suggestions for future publications? Could you suggest research possibilities? We're open for suggestions, and my thanks to those of you who have supported and continue to support the Bureau's efforts.

Carl Patton

.....

THE FACULTY

.....

David B. Berry

Much to my surprise I spent a second year here on a visiting appointment. However, this summer I really am leaving--to be a "Senior Regional Scientist" at Abt Associates in Cambridge, Massachusetts. Goodbye, Champaign.

During the fall semester I was the professional host for our second highly successful Planning Practice Seminar (the "All-Star" Course) which featured ten distinguished planners as guest speakers. Several departmental alumni participated in the All Star Course, including Alan Richter from the East-West Gateway Coordinating Council, Walter d'Alessio from the Philadelphia Industrial Development Corporation, Robert Teska, of Robert Teska Associates, and Michael Turner, from the Detroit Renaissance. In addition, I taught courses in planning for declining cities, regional planning, and planning methods in the 1978-79 academic year.

Lachlan F. Blair

Between last year and the coming one, the Blairs will have covered many of the principal cities in the continental forty-eight. Living out of a suitcase seems again to have become my way of life, a mode I forsook when I left consulting practice for academia thirteen short years ago. Last year's travels were for conferences, consulting, family matters, and some fun; the itinerary reflects my diverse interests.

The American Council on the Arts lured me last summer to Detroit's disappointingly isolated Renaissance Center. The subject of public involvement in the Upper Mississippi Master Plan got me to marvelous Minneapolis in the winter, and metropolitan matters for regional councils took me to wondrous Washington in the spring. Repeated treks have been made to Milwaukee where we have two fine grandchildren, to topographically preposterous Pittsburgh where my dear and very elderly aunt is ailing, and to familiar Chicago where multitudes of meetings keep us from enjoying the city. Spring break took us to Atlanta and Savannah, the current mecca for preservationists.

Idyllic Allerton Park was the setting last September for a statewide "Preservation Caucus" I helped with. Ten students from my Preservation Planning Workshop served as staff and recorders, mingling for a couple of days with one hundred experts and leaders from all parts of Illinois. The bulk of their semester's workshop effort was on preservation opportunities in Downtown Champaign, less idyllic but instructive. These encounters with the real world resulted in a set of attractive booklet products, including "Candid Comments" on the Caucus. If you'd like copies, let me know.

All those travels add to my slide collection, now numbering too many thousands, from which selections are made for my courses, extension and civic talks, and Christmas party fun where I can't resist the urge to slide in a

few puns. And there is no end of committee work, departmental, campus, and outside groups. I feel we deserve at least a pat on the head for the efforts of the Search Committee which resulted after long deliberations in making Carl Patton the Head! The Chair I occupy on the Urbana Plan Commission became an uncomfortably hot seat this spring during five consecutive nights of hearings on a new zoning ordinance. The harsh and rampant citizen participation truly strained my commitment to that essential aspect of planning.

The women in my life continue to make me proud and delighted, as does my son. I am now married to three Past-Presidents: two of different Leagues of Women Voters and the Immediate one of the 600-member Women's Club of the U of I. Our daughter Marilyn is now a hydrologist/geologist at the Manti-Lasal National Forest in Utah, and Doug Blair can be heard regularly over WZUU-FM in Milwaukee.

Sabbatical travels this Fall will be devoted to serious research in pursuit of exemplars in facilitating urban design excellence. I'm packing my suitcase again to get a grip on the "Role of the States in Urban Design," with extended visits to selected state capitals and principal cities. I hope to see many alumni and friends in my ramblings.

Barry N. Checkoway

1978-1979 has been productive for the Checkoways. I agreed to start up our new social planning concentration with a focus on applying policy analysis and planning skills to social service delivery and social problem solving. This has fit nicely with my research and teaching. My recent publications have fallen mainly in the health care planning, neighborhood development, and citizen participation fields. Two book projects are now underway, one on the policy problems and prospects of the metropolitan midwest, another on citizen participation in health care planning. My courses and workshops continue to bring results. One workshop study helped a Chicago neighborhood organization develop its plans for a neighborhood development project which has been recognized in national publications. And students have gone on to positions in neighborhood planning and community development across the country.

Public service activities have been time-consuming but worthwhile. I helped organize the first national conference on citizen participation, delivered invited testimony on the subject to U. S. House and Senate subcommittees, continued my work on health planning for the U. S. Department of Health, Education and Welfare, and accepted the deputy editorship of a major journal in the community organization field.

Most productive of all, the Checkoway family has grown again. Laura Anne joined our family in 1978 and is already taking lessons in walking and talking from sister Amy, who divides her time between nursery school and our new house on West Washington Street. Margie is president of the Coop Nursery School in Urbana and finds it a logical step from her years of teaching. We enjoy the Midwest and find it has much to offer a family such as ours. But we continue to miss what can only be found in large cities, and for us the roads between here, Chicago, and the two coasts are well-traveled.

Clyde W. Forrest

It has been another short year with a few long moments. The courses in Planning Law and seminars in Environmental Law and Growth Management Law went very well this year. Students continue to act semi-paralyzed the first three weeks and then begin to limber up for the midterms. I'm sure that "Paper Chase" had an adverse effect on our students in the law courses. Completion of a year as chair of our intra-departmental advisory committee, chair of the departmental admissions committee and chair of the college graduate courses committee has left me stunned as to the volume of redundant paper work. A personal resolution to exercise more restraint in accepting committee jobs seems to be in order.

Consulting activities have included a neighborhood case in Rockford and a new overlay zoning ordinance for Urbana--part of the Boneyard Creek.

Other local activities are service as the Champaign County Izaak Walton League president and as a member of the board of the Champaign County Development Foundation. The major extra time consumer has been as a scoutmaster. What's a sedentary, middle-aged lawyer doing in a Boy Scout uniform, you ask? Indeed, I wonder at times myself.

Our family is well and content in good old C-U. Compared with some of the places we visited last summer, it has many advantages. We are looking forward to another year, new faces and visiting with old friends.

Eric C. Freund

Here I am again in the same situation as I found myself in last year--just about to dash off to Europe to gather information for future comparative courses in planning and historic preservation, while at the same time trying desperately to remember what has happened in the blur of frantic activity which we dignify with the term "The Academic Year."

Last year's trip to Britain included visits to familiar places where I am keeping a watch on examples of the preservation of historic areas and individual buildings and to some unfamiliar new places. Perhaps the most outstanding example is the old Roman city of Chester. A walk around the old city always yields a wealth of new projects begun and older projects completed, which I submit to the gaze of my faithful 35mm camera for students to see at a later date. Another place that I visit regularly is Ironbridge --the site of the first cast iron foundries and where, in 1779, was built the first iron bridge in the world, which has remained in use to this day. Other places of interest visited included both small houses and country mansions dating from the 1500's in various stages of restoration, and castles, fortresses, industrial buildings and old priories, both restored and adapted to contemporary uses by a private nationwide trust set up for that purpose. If you'd like to live in one of these interesting conversions for a few weeks in the summer and make like a king, a monk, or an industrial giant, just let me know and I'll fill you in with the details!

Teaching activities during the year included comparative courses in

historic preservation and in new town development, together with the still developing "Graphic Communication for Planners" course which now seems to cover all the practice techniques and skills not covered in other courses. It is unashamedly a survey course, from which students stagger away with piles of handouts which, hopefully, become severely "dogeared" as they are referred to frequently in the years of planning practice which follow graduation.

During the year I was asked to design and have printed a new departmental poster that would be irresistible to prospective students. It has just arrived from the printers and has started to adorn the walls of various offices. Only the future will reveal how successful it is as a publicity medium--but if you want to try it out, just send to me or to Barb Hartman for a copy. I'll guarantee that the warm red color will enable you to set your thermostat a few degrees lower in the winter and thus help to combat the energy crisis. I was also asked to assume some responsibility for alumni relations which we wish to strengthen considerably in the years to come. It is sad to think how close we all are when engaged on our mutual educational effort over a period of years, and how far we drift apart--sometimes to the point of loss of contact altogether--in the years that ensue. I do hope that we can remedy this situation to our great mutual advantage.

My major involvement for the past three semesters at least, has been the preparation of a comprehensive plan for the City of Tuscola, parts of which have already been adopted by the city council. This has been a "from the ground up" experience, starting with rules of procedure for both the plan commission and the board of zoning appeals. The close of this semester saw the completion of the study documents, presented officially by a group of 17 students from UP 236 and UP 337. A selected group of UP 338 students will be reviewing and editing the documents next semester and following their passage through city council to adoption. We will then be involved in the publication process, which hopefully will include a special supplement to local newspapers.

If I were to be asked what made the greatest impression upon me in the past year I would have to admit that it was the "great break" that I experienced in January, achieved by the simple expedient of gliding down a flight of concrete steps without the benefit of skis. This interesting--and I might mention unfunded--research project proved beyond a shadow of doubt that the feat could not be performed with safety. It will, no doubt, save countless would-be experimenters from future injury, and provided at least one surgeon with invaluable experience in piecing together many pieces of shattered bone with stainless steel wire which, I am sure, will trigger warning lights and alarm bells whenever I go through safety checks at major airports. I am now into "physical therapy and functional training" in order to get the most use out of my arm in the future. At present I am unsure which is the greater agony--shattering a limb or getting it limbered up again.

And what, now, of the future? First, I supposed, a busy round of exploration into all the things in which I am interested in Britain including the science of large-scale development over areas with an unstable subsoil, such as old mining areas. My second endeavor will be handling UP 171 next semester. I look forward to the experience--and challenge--of teaching this

introductory course in planning to some 300 freshmen and sophomores, with the able assistance of eight or nine teaching assistants. As far as I am able to gather from enquiry, the challenge seems to be to structure a course that will appeal to such a large number of students with many different backgrounds. It is quite a different problem from structuring a course that will prove interesting to students from a single discipline--and this is often difficult enough. The scene is obviously not set for rave notices on the course: mere acceptance would appear to be a target denoting a howling success!

I am still involved in the Technical Advisory Committee of the Champaign County Historical Museum, attending meetings of the Illinois Historic Sites Advisory Council, and am chairman of the Improvements Advisory Committee for Robert Allerton Park which presently is involved in some very interesting reconstruction work.

I find that last year I invited you to write to me--and some did--and I was most interested to hear all your news. Now that I have been appointed alumni liaison person there is no excuse not to write to me--in fact you may even consider it a duty on your part. Come to think of it, it's even a duty for me to reply, so it's a two-edged sword. I hope you'll use it to cut through the lethargy that so often inhibits correspondence, in which case I'll hear from you directly, instead of having to wade through next year's edition to see what you've been up to.

William I. Goodman

I have developed an interest in the education of professionals within the University, that is, individuals in programs outside of the traditional arts and sciences curricula. There are more than 40 professional programs taught on this campus. I was assigned by the Graduate College to make a study of their special needs and of how they fit into the mission of the University. A report on my study is scheduled to be presented at the annual meeting of the APA in October.

Urban transportation continued to occupy my time. I was a panelist at the annual meeting of the Transportation Research Board on the subject of Transportation and Land Use. I contributed to a special conference on Future Urban Transportation, held at Aspen, Colorado and sponsored by APA, the U. S. Department of Transportation, and the Transportation Research Board. I continued to serve on the Board of Editors of Transportation, the international journal prepared by European and North American transportation professionals.

Albert Z. Guttenberg

It was good to come home last July but now we're beginning to miss Holland.

What was I doing there? Developing my system for defining and organizing land data, testing it and comparing it with other extant systems in

Europe. The Dutch have been particularly interested in this research. Many agencies in the Netherlands including the municipalities, the public utilities, the polder builders and the railroads are at the point of automating their data bases and this has given them pause and cause to think about how to standardize their data categories so as to ensure interagency exchangeability of data. This April I returned to Holland for about 10 days to present my approach at the Seventh European Symposium on Urban Data Management. The Delft University of Technology was sufficiently interested to offer me a grant to enable me to go to Holland for the Fall semester 1979 to continue to develop the system. As of this writing I haven't yet decided to accept although the chances are I will.

Europe also afforded scope for one of my other specialties--planning history. I was able to meet and exchange views with persons of like interest at history of planning conferences in Scotland, England, Holland and Germany.

It wasn't all work, though. There was ample time for travel and we visited many places, some of which we had seen before but only fleetingly. We got to Italy but not as far south as Rome, to Mariella's great disappointment. Maybe next time.

Leonard F. Heumann

My sabbatical was fantastic. I hate to be back! It's hard to get back into the groove of teaching.

I am getting deeper into gerontological research than ever before. I have an Andrus Foundation grant conducting a survey of the ability of local planners to conduct detailed needs analysis of the elderly.

Rob is getting into the area too. She has finished her nursing degree and is specializing in geriatric nursing, working on the oncology floor at Carle Hospital.

Sarena is five feet tall and beginning to enter puberty. She is continuing in the arts. She plays the clarinet and piano but is losing interest in ballet and getting into gymnastics.

Aaron picked up a great love for soccer in England and still has it. Other than that, Aaron is just Aaron.

Andrew M. Isserman

Ellen Jacobsen (MUP '74) and I celebrated our second anniversary on July 23. Our marriage is still the most exciting news that I have to report (besides some of you probably missed last year's magazine). Ellen is almost a work junkie as you can learn by turning to the 1974 section. Although we enjoyed Los Angeles last year, it has been marvelous in Urbana this year. Our house across from Carle Park is responsible for a good part of our appreciation of life here. The park is pretty all year round, and the office

is an easy walk away. Moreover, the nearby high school track makes it difficult not to run a few miles each day. Next time you sit in gasoline lines, perhaps you will remember the easier life in Urbana and resolve to migrate back here and rejoin us.

This year has been another busy one professionally. I taught urban and regional analysis (UP 476) and local public finance (UP 485), as well as a doctoral course in regional economic development (ECON 461). I continue to edit the International Regional Science Review, which has subscribers in 59 countries, and am on the editorial board of the Journal of the American Planning Association. (In fact, I am reading so many manuscripts that I need stronger contact lenses.) Occasionally, I get glimpses of the "real world" through service on a Federal committee on population forecasting and an advisory committee to the Illinois Office of State Planning.

My research this year has dealt mainly with the treatment of suburbs and rural communities under the community development block grant program and on measuring suburban need and distress. U. S. HUD was kind enough to provide a grant which supports five students doing research on those topics. Also, I have completed manuscripts on economic base analysis, shift-share analysis, and plan evaluation. As you know, in this profession it's "have manuscript, can travel," so I had the opportunity to give papers in New Orleans, San Diego, Nashville, and Amherst.

In late August Ellen and I will move to Washington, D. C. I have been awarded a research fellowship by the American Statistical Association to do research toward the development of new economic-demographic methods for forecasting interstate migration and state populations. It is a 12-month appointment on leave from this University. We are going with some reluctance as the first paragraph may imply, but the research opportunity, staff and resources is just too good to pass up. In any case, we visitors in your town would appreciate hearing from our friends and potential friends in the Washington area. Both of us probably will attend at least part of the APA meeting in Baltimore, so we hope to see you at the Alumni Reception.

Best wishes for the upcoming fiscal year.

T. John Kim

It seems to me that the 1978-1979 year was one of the busiest, but one of the most fruitful. I was very glad to have been promoted to Associate Professor.

In the 1979-80 academic year, I will be working in Korea as Principal Planner and Department Manager of the Task Force assigned to the planning of the New Capital City. I am excited about this opportunity. My new address in Korea will be: Tschangho KIM, Department Manager
RDRI/KIST
P. O. Box 131, Dongdaemoon
Seoul, Korea

Please let me know if you have plans to visit Korea.

Carl V. Patton

Gretchen hates me. Last summer I spent a month in Europe without her. I was invited to present a paper at the Fourth Annual International Regional Science Institute in Siegen, Germany, and traveled to the conference by way of Greece (where I stayed with Michael and Vasso Romanos who were visiting relatives) and Rome (where I toured with one of my professors from undergraduate school). Needless to say, I had a great time and am ready to return at a moment's notice.

Gretchen is still employed by Sears where she continues to track down wrongdoers. John is now into little league, and I am getting sucked into

that too. Those of you who are aware of my lack of athletic ability would have gotten a good laugh the night when the team's coach couldn't make a game and I had to fill in. I had to decide on the line up, keep the box scores (I had no idea how to fill out the forms so I made up a new system) and coach. Believe it or not, the team won by a score of 8 to 3--the only game they had won up to that time.

Jane continues with the piano and Gretchen coaches her. Last summer Jane entered the American Music Scholarship Association international piano competition. She won both the regional competition for her competition level (and received a travel award), the semi-finals and the finals (where she also won a cash award). She entered again this year and won the regionals and received a travel award to attend the semi-finals and finals in Cincinnati. (As this was going to press Jane had just won the finals.) John continues with the violin, and Jane has taken it up as her second instrument.

My book on university manpower planning, Academia in Transition: Mid-Career Change or Early Retirement was published in January. I prepared chapters on this general topic for Enhancing Faculty Performance and Vitality published by Jossey-Bass and Planning in Stagnating Regions published by Nomos. With Jim Marver, a friend from Stanford Research Institute, I published an article in Educational Record about the productivity of academics who consult. Other publications this year include "Rural Housing and Community Services," a chapter with Randy Suko in Rural and Small Town Planning by the American Planning Association. For the same book I prepared a second chapter about rural transportation problems and possibilities. Ken Stabler (MUP 1977) and I published "The Small Town in the Urban Fringe: Conflicts in Attitudes and Values" in the Journal of the Community Development Society. For the APA conference in Miami I organized a session on Quick and Dirty Problem Solving. The session was attended by more than 300 persons who heard excellent presentations by John Linner, a planner for the Community Development Department of the City of Cleveland, and by Charles Sim, an analyst for the Illinois Bureau of the Budget.

I also presented papers at the Midwest Economics Association Conference in Chicago and the American Association of University Professors Conference in Houston, wrote a book review on Small Cities in Transition for Planning, and with Gretchen, wrote a review of five children's books for the Gerontologist. I also continue as a reviewer for Policy Analysis.

This was also my year for community involvement and committee assignments. Gretchen and I were co-presidents of the Leal School PTA. I was (and still am) Chairman of the City of Urbana Community Development Commission and a member of the Champaign County Development Council Foundation. At the University I am a member of the advisory committee to the All-University Gerontology Center. On the national level, I am a member of the Committee on Academic Retirement and Insurance Plans of the American Association of University Professors and a member of the advisory committee on mandatory retirement for the American Council on Education.

Since I was both Acting Head and Bureau Director this year I was unable to teach my usual courses, although I did give an occasional lecture and was the principal adviser for several theses. Next year I am planning to teach at least the course on budgeting and the planning process.

John A. Quinn

I continue as Associate Director of the Bureau for Continuing Education and Public Service and for Publications.

I'm also serving as Chairman of an ECOP (Extension Committee on Organization and Policy) National Task Force on Local Government and as a member of the Governor's Advisory Council on Rural Development. I've completed my second year as an alderman on the Tuscola City Council. Finally, I was selected as Editor of the Journal of the Community Development Society this past year by the Society's Board of Directors.

Michael C. Romanos

I must consider 1978-79 a good year: I finally settled all my differences with the U. S. Immigration--I still can't believe it's over--and moved one step closer to retirement with my promotion to associate professor. I certainly consider it a busy year. I had to teach all my courses this time, and, in addition, I had to work on a research project funded by the U. S. Department of Transportation. If this were not enough, I spent a considerable amount of time finishing up reports of three research grants--all of them on energy conservation and transportation demand analysis--and submitting several new proposals for research funds.

But was this year productive? Of course, what we call productivity, many of you by now are smiling at. But for academics, to have a book out is always satisfying, particularly when you have been fiddling with the manuscript for close to three years. The book is called Western European Cities in Crisis, has been published by D. C. Heath, and has a hot red cover. Now, I too have my little red book!

Perhaps the high point of the academic year for me was at the end. In fact, this communication is the last thing I intend to do before I take off literally. On an invitation by the government of Greece --governments never learn--I will be visiting some of the northern underdeveloped provinces of that country and will design--what else--some models of regional economic development and project impact evaluations. Best wishes for the summer and the coming year to all of you. To those of you who used to call and don't anymore: I miss you.

Faculti EmeritiScott Keyes

Since last reporting, I have continued to work in the field of historic preservation. I have also continued my research on sources and uses of

public funds at the areawide level, and in March of this year I went to Bloomington to make a presentation on the subject before the Task Force on the Future of Illinois.

Louis B. Wetmore

This year my continuing efforts to organize materials on planning practice were given a push forward by the invitation to teach a spring seminar.

During the previous two years, I had organized a series of case studies to illustrate the operation of analytical frameworks for situation analysis. These case studies dealt with formulation of viable planning programs designed to fit given case situations. Subjects ranged from urban renewal through economic development to regional land use planning, and varied in scale from city through regional to state and national governments.

The spring seminar provided an opportunity to test presentation of these formulations. It also provided the deadlines essential in pushing me to edit early drafts of the case studies.

The Star Course during last fall brought several experienced planners to campus to present overviews of their personal professional experience. My interest in the subject matter was heightened by the fact that a number of these visiting professionals were alumni.

In the coming year I plan to initiate a questionnaire to alumni about their personal career patterns. This, I believe, could give a broader perspective to complement the in-depth case studies.

Did you know:

Our current full-time faculty has a combined professional planning practice experience that totals 129 years. If you add to that figure civic activities such as chairmanships of water pollution control commissions, local and regional planning commissions, and various advisory roles, the total rises to 197 years. Here is the breakdown:

<u>Planning Activity</u>	<u>Years</u>
Staff Member	69
Administrator/Director	32
Consultant	28
Civic Activities	<u>68</u>
	197

.....

THE STAFF

.....

Barbara Hartman

Barb is the departmental secretary--she's secretary to the head and associate head (Carl Patton and Lock Blair) and handles a lot of the day-to-day administration of the department, including registration and advance enrollment procedures, scheduling of classes, and supervising the clerical staff. She also advises students, answers questions, gives her opinion on departmental policies when asked (and often when not asked), and, of course, edits and prepares the Alumni News. Barb has worked for the department for 7 1/2 years.

Violet Wilkey

Vi is the Chief Clerk for the department. Hers is a critical role in that she is responsible for handling all of the departmental accounts--both state accounts and those from research grants. Anytime there is money to be spent, Vi is the person to see. She processes all the appointments so that people get paid, doles out petty cash for legitimate purposes, as well as keeping all those books! Vi has more than twenty years of University experience, including over six years with this department.

Jane Terry

If you have occasion to call the main departmental office, Jane is more often than not the person who will cheerfully answer the phone. In addition to putting our best foot forward as our receptionist, she is our admissions clerk and processes all applications for our graduate program. She also coordinates all mimeographing and copying for the department, handles the departmental filing, and provides supervision for our student hourly employees. All of you who know Jane know that she keeps up with all of the students and activities of the department and is a tremendous resource person. She claims seniority for the secretarial staff, having joined the department in June of 1971.

Eleanor Penn

Ellie is the secretary who provides clerical support for those faculty housed at 1001 West Nevada. This includes handling all of the course materials for UP 171, our large, introductory planning course. She has also managed to be assigned to some of our most productive faculty (in terms of conference presentations and publishing) and so is constantly under the pressure of one deadline after another. She handles these challenges splendidly and with great care. Ellie joined us in a permanent position in July of

1974, although she had worked for us for several weeks before then on a temporary basis.

Kathleen Suits

Kathy, who has been with DURP since November 1972, is responsible for handling preparation of materials and processing registration applications for our four continuing education programs each year. She works closely with John Quinn who is in charge of continuing education and publications. Kathy mans the registration desk at all our conferences. Those of you who take advantage of our continuing education programs will undoubtedly have the pleasure of meeting her, if you have not already.

Susan Safanie

In addition to providing clerical support for several faculty, Susan also processes all our publications orders. This includes mailing out publications, sending invoices, processing payments, and keeping an accurate inventory of all publications on hand. She also has designed publication brochures and helped to write the Bureau annual reports. Sue joined the department nearly two years ago; unfortunately, she will be resigning this summer to return to school to finish her finance degree.

THE STUDENTS

STUDENT PLANNING ORGANIZATION

The Student Planning Organization performs a three-fold function. First is the social function of providing activities to promote a cohesive student group. Second is the academic function of acting as liaison between students and faculty and representing the students' viewpoints during the establishment of departmental policies and objectives. Third is the professional function of contributing to the growth and betterment of the planning profession. Under the capable and enthusiastic leadership of president Kristi Cromwell-Cain, SPO enjoyed a very active and highly productive year on all three fronts, promoting student involvement in a wide variety of social and academic activities.

Socially, SPO sponsored several enjoyable get-togethers and events. The year began with the traditional fall picnic, which served as an occasion for newly-arrived students to get acquainted with continuing students. This was followed several weeks later by a weekend camping trip to the forested hills of southern Illinois, complete with campfire delicacies cooked by our resident wilderness gourmet cooks and raucous campsongs. In February of this year SPO members headed north to Wisconsin for a weekend of skiing, where half of the group participated in the downhill variety of the sport and the other half cross country skied, and where all of us learned the techniques of a sport most aptly titled "keeping-warm-in-cabins-obviously-designed-for-summer-use-only! Other outdoor activities sponsored by SPO this year included the tennis ladder competition.

Indoor activities abounded too. In addition to the many more informal social gatherings, SPO continued two recently founded traditions: the Urban Sprawl Ball and the Spring Fling. The Sprawl Ball serves as SPO's Christmas holiday festivities. The evening of dancing and cocktails was highlighted by a series of hilarious and often outlandish skits, presentations, Christmas carol parodies, and comedy routines by students, faculty and the secretarial staff. No one present will soon forget, among other memorable presentations that night, the unforgivable puns of master of ceremonies Charles "Corky" Neale, the visual hilarity of Lock Blair's slide presentations, the recital of his most recent works by the department's own poet-humorist Eric Freund, or, above all, the outrageous impression of a 1950's rock and roll singer by Len Heumann, accompanied by his Lennettes. The Ball provided students with an opportunity to see a side of the faculty which we are not often privileged to see.

The Spring Fling was held at the end of the academic year as a last gathering of the graduating students with the faculty and continuing students. After dinner and amid the jokes and banter were more serious presentations to those whose efforts in SPO and in the department were deserving of recognition. Among those students receiving awards were Lauren Kay Benninger who received the Karl Lohmann award for professional promise, William Cahill who received the American Planning Association graduate student certificate for academic achievement, and Bruce Stoffel who received the undergraduate American Planning Association award.

On the academic and professional fronts, SPO was equally active. In

addition to the regular representation of SPO at faculty meetings, SPO members also serve as representatives on many special faculty committees. Most important this year was the headship selection committee, which included two students. While the changing of the head of a department is likely to cause inevitable minor disruptions of routine and accompanying headaches, it also provides an exceptional opportunity for student input into the ongoing process of determining the direction of the department. The selection of a new head proved to be an excellent vehicle for opening up discussion on the future emphasis of departmental policies and programs, a discussion in which students took an active role. In addition to representation on the committee, students were given the opportunity to question the final candidates and express their opinions to the selection committee through SPO.

Additionally, students were also represented on the undergraduate curriculum committee and at the meetings during which next year's visiting faculty were chosen.

An innovation this year was a Wednesday noon film festival, organized by undergraduate Candace Campbell. A series of films of interest to planners was presented. Funding was received not only from SPO and the department but from the Departments of Architecture and Landscape Architecture as well.

Other academic and professional endeavors by SPO included the creation of a community documents collection--a compilation of official studies and publications on or about the Champaign-Urbana area--and its placement in a local library for community use, and SPO's first publication. When the product of a department workshop, entitled "Organizing a Community Development Corporation," received a very favorable review in a professional journal, the authors were deluged with requests for copies from individuals and organizations from all over the U. S. The demand for the manual was so great that a second printing had to be ordered. Copies are still available to those interested. Just send \$3.00 (to cover printing and mailing costs) to SPO at the department.

A major advance in the evolution of SPO as an organization occurred this year when we received substantial funding from the Student Organization Resource Fund (SORF). Many of the projects which we have undertaken were made possible by this funding. We hope that in the future this new source of resources will allow us to even further expand our services to fellow students, to the department and to the community and profession.

We in SPO feel that we can be proud of our accomplishments during this very active and enjoyable year. We look forward to the continued fulfillment of our three important functions during the 1979-80 academic year.

Keith Mitchell
1979-80 SPO President

Graduate Student Roster

- COKER ADEGBORO, B.A. in Urban Planning, Shaw University.
- S. SRINIVASA BHAT, B.Arch., University College of Engineering, Bangalore, India.
- WILLIAM CAHILL, B.A. in Economics and Political Science, University of Iowa.
- ANN CAMPBELL, M.A. Ordinary in Geography, University of Edinburgh.
- BRADLEY CANTRELL, B.U.P., University of Illinois at Urbana-Champaign.
- BILL CHAN, B.A. in Economics, Southern Illinois University.
- KRISTI CROMWELL-CAIN, B.A. in Economics, University of Colorado.
- MARY DEVITT, B.S. in Social Welfare, University of Illinois at Urbana-Champaign.
- BEVERLY FLEMING, B.A. in Art, Washburn University.
- ROBERT GLEISSNER, B.S. in Public Administration, Indiana University.
- OVIDIO GONZALEZ, INARQ, Instituto Politecnico Nacional, Mexico.
- RICHARD HAYES, B.F.A., Northern Illinois University.
- KATHLEEN HERRMANN, B.A. in Sociology, Northern Illinois University.
- NIRANJAN HOSKOTE, B.Arch., Nagpur University, India; M.Arch., Oklahoma State University.
- JANET JAROSS-ARBISE, B.S. in Geography, Northern Illinois University.
- VALLMER JORDAN, B.S. in Psychology, University of Illinois at Urbana-Champaign.
- THOMAS KING, B.A. in Biology, Denison University.
- WILLIAM LENSKI, B.U.P., University of Illinois at Urbana-Champaign.
- ANNEMARIE MARTI, B.A. in Geography, University of Illinois at Urbana-Champaign.
- GREGORY MC DANIEL, B.U.P., University of Illinois at Urbana-Champaign.
- KEITH MITCHELL, B.A. in Political Science, University of Rochester.
- NANCY MUNSHAW, A.B. in English, University of Missouri.
- CHARLES NEALE, B.A. in Geography, University of Kansas; M.A. in Geography, University of Cincinnati.
- CHARLES NELLANS, B.A. in Psychology, Wichita State University.
- GLORIA NORIEGA, B.Arch., Universidad Iberoamericana, Mexico; M.F.A., California Institute of the Arts.
- KEVIN OAKES, B.S. in Geography, University of Utah.
- MICHAEL O'DONNELL, B.A. in Political Science, St. Joseph's College, Philadelphia.
- OLAYINKA OLANIPEKUN, B.Arch., University of Oregon.
- JERRY OTTO, B.A. in Psychology, Sangamon State University; M.S.W., University of Illinois at Urbana-Champaign.

JOHN PAGE, B.S. in Geography, Illinois State University.
 VIDYAHAR PATIL, B.Arch., University of Bombay.
 GREGG PERRY, B.A. in Government, Notre Dame University.
 E. JAMES PETERS, Bachelor of Environmental Design, Texas A & M University.
 PATRICIA PETRIE, B.A. in Chemistry, Psychology, and Zoology, University of Colorado.
 PETER PEYER, B.S. in Urban Planning, Iowa State University.
 DELMER POWELL, B.A. in Sociology and History, Eastern Illinois University.
 WILLIAM POWERS, B.A. in Political Science, Northern Illinois University.
 LOIS ROCKER, B.A.U.P., University of Illinois at Urbana-Champaign.
 JON RODGERS, B.U.P., University of Illinois at Urbana-Champaign.
 ANITA RUSSELMANN, B.A. in Anthropology, Cornell University.
 LEO STERK, B.U.P., University of Illinois at Urbana-Champaign.
 DAVID STERN, B.A. in Urban Studies, University of Maryland.
 DOUGLAS STROUP, B.A. in Urban Studies, Hobart College.
 GHOLAMALI TORABY-ZADEH, B.A. in Social Sciences, University of Tehran.
 NANCY WARD, B.S.E, University of Wisconsin at Whitewater.
 HERBASUKI WIBOWO, SJT, Institut Teknologi Bandung, Indonesia.
 DIANE WILCENSKI, B.S. in History, University of Wisconsin at River Falls.

Undergraduate Student Roster

KEVIN AUGUSTYN, Hammond, Indiana, Junior.
 L. KAY BENNINGER, Champaign, Illinois, Senior.
 ELIZABETH BENOIT, Arlington Heights, Illinois, Junior.
 PAMELA BERNAS, Chicago, Illinois, Senior.
 CANDACE CAMPBELL, Wooster, Ohio, Senior.
 TIMOTHY CANNON, Glen Ellyn, Illinois, Junior.
 PAMELA DE PRIEST, East St. Louis, Illinois, Junior.
 MARK EISSMAN, Lincolnwood, Illinois, Junior.
 ADRIAN GARCIA, Chicago, Illinois, Senior.
 MARLA GOLDSMITH, Skokie, Illinois, Junior.
 TERRENCE HOFFMAN, Woodridge, Illinois, Senior.
 HAROLD JENKINS, Chicago, Illinois, Senior.
 MARK KIEFFER, Champaign, Illinois, Junior.
 LORI LEFSTEIN, Rock Island, Illinois, Junior.

DAVID LEVIN, Niles, Illinois, Senior.
 DONNA LOCICERO, Peoria, Illinois, Junior.
 JAMES LYMAN, Crystal Lake, Illinois, Junior.
 MICHAEL MACZKA, Chicago, Illinois, Junior.
 DAVID MATHEWSON, Joliet, Illinois, Senior.
 KATHLEEN MC MAHON, Champaign, Illinois, Junior.
 ROBERT NEVITT, Wheaton, Illinois, Junior.
 JEFFREY PERSON, Peoria, Illinois, Junior.
 DAVID POTTER, Springfield, Illinois, Sophomore.
 TRYNER PRICE, Bloomington, Illinois, Junior.
 MARIANNE ROSEN, Aurora, Illinois, Junior.
 LAURIE SCOTT, Mahomet, Illinois, Senior.
 AKINDELE SIYANBADE, Lagos, Nigeria, Senior.
 ANTHONY SMANIOTTO, Tinley Park, Illinois, Senior.
 LISA SOLOMAN, Evanston, Illinois, Junior.
 LYNN STENSTROM, Urbana, Illinois, Sophomore.
 BRUCE STOFFEL, Belleville, Illinois, Senior.
 WILLIAM THOMPSEN, Princeton, Illinois, Senior.
 GINA TRIMARCO, Park Ridge, Illinois, Senior.
 WALTER TROMPKA, Chicago, Illinois, Senior.
 RICHARD URYCKI, Chicago, Illinois, Junior.
 POLLY WEISS, Lansing, Illinois, Junior.
 SCOTT ZIEGLER, South Elgin, Illinois, Senior.

THE ALUMNI

.....

.....

• 1922 •

.....

DONALD W. BUSH ('22 BSLA)
9743 Hudson
Rock Hill, MO 63119

.....

• 1926 •

.....

CLAIRE ELMO ONEAL ('26 BSLA)
Office: Landscape Coordinator
Avco Community Developers
16770 West Bernardo Drive
San Diego, CA 92127

Home: 17421 Plaza Dolores
San Diego, CA 92128

I have been associated with Avco
Community Developers since 1970
when I retired as a Vice President
in charge of Planning for the Leo
A. Daly Company.

I am now the landscape coordinator
for Avco Community Developers lo-
cated in San Diego.

My son is a plastic surgeon in Ann
Arbor, Michigan, and my granddaugh-
ter is a junior at the University
of Michigan and the grandson is a
freshman at Stanford University.

.....

• 1928 •

.....

FRED WILLIAM KRAFT ('28 BSLA)
Home: 1238 Glendenning Road
Wilmette, IL 60091

.....

• 1929 •

.....

CARL E. BERG ('29 BSLA)
Home: 2235 Millvale Road
Louisville, KY 40205

I have now retired from my profes-
sional practice of Landscape Archi-
tecture and City Planning.

I married Anita Willig in 1935 and
we have three children and six grand-
children.

My leisure time is devoted to exten-
sive travel, study, sketching and
painting watercolors of historic
buildings and homes, gardens and
covered bridges. In my basement
workshop, I enjoy a variety of arts
and woodworking projects.

There has never been a dull moment
since my graduation from the Univer-
sity of Illinois in the Class of
1929 (50 years!) except for a brief
confinement after a stroke suffered
in 1977. I now have even more time
for my projects, since snow shovel-
ing and grass cutting are no longer
on my activity schedule.

.....

• 1930 •

.....

CHARLES HANSEN ('30 BSALA)
Address Unknown

KENNETH L. SCHELLIE ('30 BSLA)
Home: 5701 E. Glenn St., #21
Tucson, AZ 85712

Since retiring in 1973, I have con-
tinued to work as a consultant to
several sand and gravel and indus-
trial sand producers in the

preparation of mining and reclamation plans. Currently, I am a member of the Panel on Construction Minerals, Committee on Surface Mining and Reclamation, National Research Council, and the National Academy of Sciences.

JOHN W. BEATTY ('40 BFALA)
Home: 4631 E. Mulberry Drive
Phoenix, AZ 85018

On January 6, 1978, I retired from
the City of Phoenix after serving
27 1/2 years as Planning Director.
I thoroughly enjoyed my first year
of retirement with some consulting,
puttering around and keeping busy.

RAYMOND W. MILLS ('40 BFALA)
Office: Landscape Architect and
Community Planner
325 East Main Street

We are still keeping our office in
Webster Groves rolling, doing a wide
variety of projects including parks,
shopping centers, commercial,

residential, and a new town.

ARTHUR L. MC CLISH ('47 BFALA)
Office: Landscape Architect
U. S. Army ISAE
Attn: AEUES-RM-B
APO, NY 09081

Beginning in May, 1978 my wife Eyrli & I came to Heidelberg, Germany where I am working from 3 to 5 years for the U. S. Army in Master Planning. My position is in the Headquarters Office, is very interesting, sometimes frustrating, and quite different from any previous work I've done. Living in southern Germany gives my wife and me the chance to see Europe the way we have wanted to, but never thought we would. We are enjoying bus and train tours to locations a day or more away from Heidelberg, and during the warmer months bicycle through the countryside and smaller towns within 25 miles on one & two day trips. Volksmarches and cross country skiing, along with the numerous "fests" are great.

I am Head of the Town Planning and
Valuation Department of the State
Government. Also I am Chief Town
Planner and Architect of Gandhinagar
--the new capital city of the State
of Gujarat. The city has a popula-
tion of 50,000 and growing very
fast. My son, Deepak, took up post-
graduate study in town planning af-
ter doing his degree in civil engi-
neering. He has followed his fa-
ther's foot-steps and joined Ahmeda-
bad Urban Development Authority re-
cently. My son-in-law is also an
engineer town planner. I have just
completed my house in Gandhinagar to
which I am so much attached from the
very inception. I have been the

Past president of the Institute of Town Planners, India. Ahmedabad is proud of a very good School of Planning. I am a member of the Board of Governors of this School.

We are continuing our work in the
 planning and development of downtown
 shopping malls, now having completed
 five. Construction was completed in
 November 1978 in downtown Fairmont,
 Minnesota, which included some very

striking wall murals painted by the
 Civic Fine Arts Committee. They are
 very impressive and show what can be
 done with a very modest improvement
 budget and citizen participation.
 In some of our other planning work,
 studies seem to indicate that the
 citizens' tax revolt may not be as
 strong as commonly believed and that
 the general public remains rather
 apathetic towards the general environ-
 ment.

As other alumni in California can attest, governmental enthusiasm for planning has diminished significantly since proposition 13. City and county planning staffs in many places are shrinking. From our family's perspective, however, the most notable planning event last year was Marge Macris' appointment as Director of Planning for Marin County.

Another U of I alum, Larry Tompkins, has been named to direct a graduate program in community planning that will accept students for the first time in the fall of 1979. We are very excited about this new program. It is one of a very few in the country to focus upon the concerns of developing areas rather than the problems of existing metropolises.

I joined Lifetime Communities, Inc. on 15 January 1979 as the project manager for the development of a 300 unit condominium community on Catalina Island, California. This

development will be the largest to occur on Catalina in over 20 years. The site is a canyon which meets the ocean in a cove. The development is within the city limits of Avalon, approx. 1/4 mile up the coast. The site planning is fascinating & the construction & sales logistics, spanning 26 miles of open ocean, are a real challenge. I continue to reside in Newport Beach with my wife & two teen-age daughters . . . the only place to live!

Current work activities focus on managing the rapid expansion of our architectural/planning/urban design firm from a staff of 20 to a staff of 80, and from a change in geographic scope from the Bay Area to include areas as diverse as Albuquerque, Las Vegas, Phoenix, and Atlantic City. Our planning capabilities have expanded with the addition of a transportation project planner.

Family activities continue to be our central focus. Barbara now is working half-time as an instructional aide for special education in an elementary school. Mark (15) is a high school sophomore and loves computers, Spanish, and architecture (where did I fail?). Laurie (14) is in 8th grade and devotes her time to playing soccer and raising rabbits. Betsy (10) is in 5th grade and specializes in dancing. My time goes to school

citizen committees, local political campaigns, gardening (3 county fair awards), upgrading the house, and camping.

I am in the midst of a \$108 million new capital construction program for the port and am finishing an update of our year 2000 plan with TAMS. I am also nearing completion with MARAD and TAMS of a 17-state (mid-America) port study. Visited Tokyo last year as a U. S. delegate to the Permanent International Association of Navigation Congresses and will visit Oslo, Norway in June of this year in a similar capacity. Also visited Hong Kong and Manila last year.

 Tennessee State Planning Office
 409 Chestnut Street
 Chattanooga, TN 37402

Home: 4519 Cloverdale Loop
 Chattanooga, TN 37443

Current (or recent) professional activities include the preparation of a Comprehensive Housing Study, a set of detailed city property and utility inventory maps, various special impact analyses reports, and a Recreational Facilities and Services Plan for a small progressive city in southeast Tennessee.

Personal interests include landscaping, sailing, model railroading (third bedroom is now train room), local historic preservation work, and serving on board of a church-sponsored group for single adults. Annual travels include the two weeks in the Palm Beaches at Christmas, as well as a summer trip elsewhere. Happily, four corrective surgeries in Atlanta during the past two years are now complete resulting in my improved speech and appearance.

I'd appreciate seeing any of my classmates when you are passing through scenic Chattanooga.

 Panama City, FL 32405

This is about 3rd or 4th reorgani-
 zation of this effort since I came
 aboard in 1976. What used to be the
 USAF Civil Engineering Center is now
 a greatly expanded activity. We are
 the AF's environmentalists and com-
 munity planners and are now an ele-
 ment of Headquarters, US Air Force.
 From our home base here on the Red-
 neck Riviera we serve the Air Force
 worldwide, so there's lots of trav-
 el, lots of challenge. Family are
 all doing well. We send greetings
 to U of I friends at Champaign-
 Urbana and around the world.

Since graduation from Illinois, I have married, have two children, worked, taught, and traveled in the U.S. and abroad. We spent 4 1/2 yrs. in Africa with our headquarters in Johannesburg, South Africa. I worked for the city and for a private development company. In 1971 we came to Alaska and I worked as Deputy Director of the state planning agency. In 1974 my wife and I entered Palmer College of Chiropractic in Davenport, Iowa, where we completed our doctor of chiropractic degrees in 1977 and now have a thriving practice in Juneau. Presently I'm involved in area-wide health planning as an avocational venture.

After ten years of dues paying, I
began my own consulting practice in
historic preservation planning in
1977. My emphasis is on bringing
historic preservation and neighbor-
hood conservation resources, issues,
and programs into the community plan-
ning/development mainstream. My

clients include municipalities, not-for-profit organizations, and architectural/planning firms located, primarily, in the midwest. I am also serving on the Board of Directors of PRESERVATION ACTION, the national lobbying organization for preservation issues, and on the Steering Committee of the American Institute of Historic Preservationists, the fledgling organization of preservation professionals.

Family: wife, Gail, married 1971.

Left planning director position in

Fond du Lac in May 1977. Present position is for development company doing residential, shopping center and restaurant development. I coordinate site planning, landscape planning, space planning, zoning, financial and leasing plans. We are known for our quality in architectural and landscape design.

DOUGLAS L. HOUSTON ('70 BUP)

Office: Director of Community Dev.
City Hall, 1528 Third Avenue
Rock Island, IL 61201

Home: 8501 17th Street West
Rock Island, IL 61201

Work continues to set a very hectic pace for us since "community development" seems to encompass more and more responsibilities each year. Laura has resumed teaching this year, but only half-time in order to spend more time with our 1 1/2 year old daughter, Emily.

Phoenix, AZ 85003

Home: 2607 Beekman Place East
Phoenix, AZ 85016

Our big news this year was the birth of our son Christopher on May 1. Joy worked up until he was born and came back two months later. She has spent over half her time this fall & winter working with two resident committees planning programs of neighborhood revitalization for their areas. Bill's Urban Forms program has included a cost/revenue study of four land use alternatives for Phoenix. Public hearings are this spring. Michael Brooks was guest speaker at our APA chapter kickoff in January.

It was an unusual year since I saw,
or talked to, many UI alumni. It
was also unusual since we moved to
a new house. It's only a few
blocks from our old house, but it's
on a hill, thereby providing what
every planner desires--a synoptic
view.

Expecting first child in April. Be-
came a registered landscape archi-
tect in state of California in Octo-
ber 1978. Still working for the
County of Orange but now as a pro-
ject manager in the recreation de-
sign section. This involves both
coordination of contracts with pri-
vate consultants and in-house de-
sign. Just completed a design for a
community center project which will
be built this summer. Also doing
some private consulting on the side.
One embarrassing note: we've been
living in our house for 2 years and
the back yard still isn't land-
scaped! We would enjoy seeing any
classmates if they're in the area.

R. MICHAEL ROBLING ('71 MUP)

GRACE E. BYRNE ('72 BUP)
Office: Associate Transportation
Planner
Puget Sound Council of Governments
Seattle, WA 98104

Home: 4321 SW Stevens
Seattle, WA 98116

I received my Master of Science from the University of Tennessee in June and have since been working in Seattle. I am in the process of developing a work program and cost estimate for a major transportation plan to be developed for one county and the larger cities in the county. It is being primarily financed by the local governments and will be focusing on their issues: development controls and financing of local roads, interstate access problems, transit service--particularly during peak hours, the establishment of employer sponsored carpool programs, etc. The county is literally exploding with new people as Boeing expands to fill its new orders. I am really excited about the study. John is still homemaker and is finding Elizabeth, at 1 1/2, to be both exciting and a challenge. She is now the star of her swimming class.

Dane County Regional Planning Comm.
Room 114 City-County Building
Madison, WI 53709
Home: 4965 Sunrise Ridge Trail
Middleton, WI 53562

We're still in Madison--with no thoughts of leaving soon. Finally, after 3 1/2 years, it looks as if our agency really will deliver a completed 208 water quality plan to EPA during the first half of 1979. That's no small accomplishment, and I can assure you that several of us are really looking forward to the vacations which will follow plan completion. Outside of work, I'm keeping busy as an officer of our state chapter of APA. Since the consolidation, we've grown from 140 to 370 statewide, and the time commitments have grown accordingly. The expansion is exciting, and offers real opportunities for advancement of the planning profession in Wisconsin.

My wife, Marlene, continues to vie for a spot in UW Law School, although

the competition remains intense. Meanwhile, she retains and enjoys her position as administrative court supervisor.

MARY I. HOLLAND ('70 BUP, '72 MUP)
Home: 1029 Lakemont Drive, NW
Gainesville, GA 30501

The year 1978 is one to be remembered by the Holland family. Margaret was married the first of May, came down with mononucleosis two weeks later, and was graduated from college in June. Daughter Sara underwent major surgery in August. John and I spent three weeks in Maryland taking care of her and her family. In December I resigned as Planning Director of the Georgia Mountains PDC in order to pursue some leisure activities.

Home: 4472 McPherson Avenue
St. Louis, MO 63108

I am still in St. Louis doing neighborhood planning, as I have since graduation. Ellen works as a claims representative for Social Security.

Our big news this year is that we actually bought a house, after all these years of renting. Its a new townhouse, unusual for St. Louis where rehabilitation of older housing is the major objective. In the last couple of years, however, new housing construction has begun to happen in a few neighborhoods.

1978 was a year for change. I was married in February to Knute Johnson and joined the public relations department of Security Pacific Bank at the corporate headquarters in LA last summer. My primary responsi-

bility has been the development of a speakers bureau program for the bank which we'll be implementing this spring. I'm also involved in other media and community relations projects.

Still living in Lancaster, Pennsylvania. The area has a good program of economic and residential revitalization in the city. There is still a good bit of sprawl, however, which is consuming excellent farm land. Our agency is involved in a broad range of planning activities including agricultural preservation, housing planning, park land acquisition, assistance to local government, and land development review. We will be hosting a statewide planning conference in September and are gearing up for that.

Home: 159 Central Chapel Road
Brooktondale, NY 14817

I'm back in school, yuk! Ithaca, NY is a fun place to study and the campus here at Cornell is scenic. I hope to continue my interest in national urban policy here at Cornell and I'm looking for a challenging research topic (any suggestions?). I live in Brooktondale, NY on a farm. The living is easy and very slow. My palace is enough to make any urbanite jealous! Sometimes I find it hard to believe that I was born in Brooklyn and was once an urban dweller. Please send all mail to the town post office.

P.S. Still looking for a wife and family. Any suggestions?

ELLEN JACOBSEN ISSERMAN ('74 MUP)
Home: 207 West Indiana
Urbana, IL 61801

Back in this town of the hallowed halls I have dropped out of the labor market (partly due to the paucity of high powered planning jobs in C-U) and back into the university. As my interest in the area of health, health planning, policy, etc. burgeoned in Los Angeles, I decided to pursue it further when we

returned to Illinois. Thus, I'm a doctoral candidate in the Social Work program and really enjoying in-depth learning again. Not making money while I'm working my tail off is somewhat distressing, but I just keep hoping I'm making myself ultimately employable. With the blessing and support of my husband I'm also pursuing another possibility--undergraduate science courses as a prerequisite for applying to medical school (the U of I joint MD/PhD program if fortune is with me). It's a definite long shot but I'm really happy to be learning about the "physical universe" at this late point in my life.

Our house and life in Urbana have been surprisingly nice. It's such a manageable environment. In August Andy, Jasmine the dog, and I take off for a year in Washington, DC (see Andy's blurb under faculty) and further adventures in change and flexibility. I'll be going to school and perhaps consulting a bit if possible. Life is fine. A happy year to all.

Office: Operations Planning
Metropolitan Transit Agency
3300 NW 32 Avenue
Miami, FL

Home: 4131 Lybyer Avenue
Miami, FL 33133

During the past winter, I decided to get out of transportation planning for special groups--mostly the elderly & handicapped--and put my planning to work in operations planning for the public transit company here in Miami. Now, instead of a bunch of vans and minibuses, I get to work with 600 buses, 32 minibuses, an operations planning program for our upcoming 21 mile rapid transit line and a downtown people mover. To say the least, I am never bored and rarely idle. My husband and I are enjoying Miami with a rambunctious sheepdog and would enjoy seeing classmates if you're in town.

1405 Curtis, #2300
Denver, CO 80202
Home: 8344 East Briarwood Place
Englewood, CO 80112

Greetings from the mile-high city!

The Tessar clan--now five strong--has settled into a comfortable existence in the suburbs of Metro Denver. Latest addition: Molly, born 11/78 (#3). I've become active in local affairs, chairing the board of the Walnut Hills Civic Assoc.--representing 1200 homeowners and one square mile of suburbia. After years of cynicism about citizen participation, I'm getting a taste of "advocacy planning." It's been interesting and enlightening.

I'm still working with the National Conference of State Legislatures--now as Director of the Remote Sensing/Natural Resource Information Systems Project. Main activities center on providing technical assistance to natural resource and environmental committees of individual state legislatures on Landsat and information system capabilities, applications, limitations and costs.

The job with the planning commission continues to prove interesting. The construction activity has remained fairly stable over the past few years. Some new industry has moved into Livingston County which should give a boost to the local economy.

Beth and I purchased a farmhouse in the country last fall and have spent the winter remodeling. We should be ready to move sometime at the end of March. This is the second house we've remodeled and hopefully the last for quite a while.

LAURENCE A. WILBRANDT ('74 BUP)
Office: Village Planner
102 South Second Street
West Dundee, IL 60118

Home: 65 South Virginia Street
Crystal, IL 60014

Greetings fellow alumni (with and without "orange fever")! After three different planning jobs in as many years, I believe I have finally quenched my wanderlust. I started as Village Planner for West Dundee, Illinois (pop. 4000) last June. Next to the Village Clerk, I am the only fulltime, general government staff member at Village Hall--so I am involved with just about everything.

West Dundee is very old (incorporated 1834) and proud of its historic background and setting--adjacent to the Fox River, just north of Elgin. Dozens of homes and stores are over 100 years old. The "problem" pertains to meshing the old village with the new Spring Hill regional shopping mall that was recently annexed and under construction. The mall, boasting over 1 million square feet and 100+ stores has stirred up a great deal of controversy over traffic, downtown parking, property values, etc. As usual, the planner is caught in a deadly crossfire. However, things are progressing, although not quite as smoothly as I

would like as the pro/anti mall struggle continues.

I am looking forward to the challenge of applying planning concepts within the coming boom/growth context of historical West Dundee. I think it is somewhat unique for a planner to "get in on the ground floor" before the small village becomes a good-sized city with its development framework and parameters largely established. My wife, Vicki, still has her hands full with 30 first-graders in Crystal Lake. But we hope to move to West Dundee shortly.

Good-bye and good luck to all!

I left Chicago in May 1978 to try life out west. Idaho, and Boise in particular, is growing rapidly and therefore has provided an exciting and stimulating planning environment. I am presently in charge of developing a joint Boise City-Ada County "Metro Zoning Ordinance" to include all varieties of development controls from A to Z. On the personal side, I have been traveling extensively throughout Idaho, Utah, Montana, and Oregon. Idaho has some of the best back-packing trails I have ever experienced. I encourage anyone with a few weeks next summer to come to Idaho and explore our mountains with their numerous lakes, ghost towns and hot springs. You'll love it out here,

but don't forget to go back to where you came from!

I'm working for the City of Aurora in the Community Development Program. This program provides financial and technical assistance to low and moderate income households in Aurora.

I've been here for 6 months and really enjoy this work.

MICHAEL F. SCHUBERT ('75 MUP)

Office: Neighborhood Director
NHS of Chicago - Near Northwest Div.
1942 North Leavitt
Chicago, IL 60647

Home: 2144 West Cortland
Chicago, IL 60647

I'm entering my fourth year with NHS --still very pleased with the organization. The program has expanded a great deal since the beginning but the focus is still on the neighborhood.

My big personal news is the purchase of a house--a two flat actually--very old but with a lot of character. The fact that it needs a lot of work means I have been living in a construction site for six months. It has been interesting but I don't look forward to doing it again. My best to everyone.

Since the last newsletter, two changes have occurred in our lives. In January I changed jobs and we moved to Boise. Our second child was born on October 10, a girl we named Melissa. She joins a brother, Brian, who'll be 3 in May. We are all anticipating many hours of recreation in the mountains and we'll not miss all the snow & cold of Wisconsin, especially after the winter of '79!

Go West Young Man. That was the theme for my recent move to Fort Collins. I am responsible for current and mid-range planning, urban design, including development review. Fort Collins was the fourth fastest growing city in the U.S. of 50,000 or more people in 1978. The high growth keeps me quite busy. We are in the midst of developing a growth management plan, and a "point system" for regulating development to replace our existing zoning ordinance. Dawn is working for a Health Maintenance Organization and is very happy about her work and the people

she works with. We recently entered the "Valley of Debt" and bought a house. Dawn and I are trying to do as much snow skiing and hiking as possible. We are both still adapting to the high altitude, low humidity, and western life. I still haven't bought a cowboy hat or boots, and am still wearing a tie to work. The other planners give me about six months to become fully "cowboyized." We're both sorry to leave our friends and fellow employees in Naperville and the rest of Illinois. If any of you "flatlanders" are out this way, be sure to stop by.

What a new experience to be the federal voice, seeing that grant applicants to UMTA comply with NEPA, the Nat'l Historic Preservation Act and the DOT Act! It's fun, to put it mildly, to appear as the representative for environmental compliance for UMTA and still speak as I do. However, citizens are becoming injured to the actuality of Dixie being

in the mainstream nowadays. I fondly remember & appreciate my survival training in Illinois. For cold weather et al it has seen me through winter site inspections in many cold spots. My best to all. What a pleasure to have this annual opportunity to keep in touch.

520 "E" Street
Eureka, CA 95501

Home: 907 "K" Street, Apt. 18
Eureka, CA 95501

In February 1978 I was promoted to Assistant Planner. I am still with the "current planning" section, working the counter and performing environmental review duties for subdivisions and use permits. Special projects are scattered when the occasion arises and a general plan revision may be somewhere on the horizon. The challenges here are that the Department is trying to change for the better and yet it needs much more interaction and support from the public. Is it ever any different?

In June 1978 I made a trip to the "great cities" of the East Coast and stopped over in Cincinnati to visit and "compare notes" with Terry Foegler. And in December 1978 I had a short but pleasant visit from Barb Hartman from the Department staff.

Best wishes to all.

Chicago, IL 60606
Home: 2224 Indiana Avenue
Lansing, IL 60438

After spending time in the fields of real estate (property management) and construction, I've moved to the Chicago area and into the planning field. I'm working in the Research Services and Economic Development Department of the Northeastern Illinois Planning Commission. My time here so far (4 months) has been spent on the creation of a machine-readable file of urban services and public transit available in the six-county metropolitan area around Chicago. Future work will include mon-

itoring of residential building
permit data as a base for popula-
tion estimates.

Home: 2740 Coacoochee
Miamia, FL 33133

LEE M. BROWN ('77 BUP)
Office: Associate Planner
5800 85th Avenue N.
Brooklyn Park, MN 55443

Home: 1163 Hague Avenue
St. Paul, MN 55104

Since Nov. 1977 I have been em-
ployed as an Associate Planner with
the City of Brooklyn Park, MN. My
responsibilities include: the ad-
ministration of a home improvement
grant; co-administration of a commu-
nity development block grant; cur-
rent and advanced planning reports
for the planning commission; all
staff graphics; enacting a housing
maintenance code; housing and the
natural resources elements of the
comprehensive plan.

The Minneapolis-St. Paul metropoli-
tan area has an extremely active and
progressive planning environment.
Its major drawback is a lack of an
advanced planning education program
with any quality. The University of
Minnesota's planning program is in
its infancy. This forces me to leave
the area when I seek a masters in
planning this fall.

Chicago, IL 60660

At your reading of the Alumni News, I should have begun work as a Planning Assistant with the City of Chicago's Dept. of Planning & Community Development. As of this writing I have not yet begun work with the

city. I was accepted for the position in November of 1977 and every week am assured that I will start the following week--that my papers have not yet cleared with the budget committee. Because I have no political connections I am told that it may take up to 8 months for my "papers" to clear. (What "papers" they refer to, I am not quite sure.) Meanwhile I am employed on a temporary basis as a legal researcher with a private law firm located at Sears Tower.

I spent my last year as a VISTA volunteer paralegal counselor with Legal Assistance Foundation of Chicago, providing free legal services to the west side's lower income minority residents.

Addendum: Due to my lack of political connections, the planning position with the City of Chicago never came through as promised. However, this past week I began my career with the Department of Health, Education and Welfare in a position which I had applied for back in June. My title is Equal Opportunity Specialist with the Office of Civil Rights. My duties are to assure the compliance of federally funded agencies with the constitutional amendments prohibiting discrimination on the basis of race, sex, religion and age. The job is even better than I had hoped for!

Office: Redevelopment Planner
#1 Alvarado Square
San Pablo, CA 94608

Home: 1710 St. Andrews Drive
Morago, CA 94556

This year has been an exciting one for me. I resigned from the DuPage Co. RPC in Wheaton, Ill. last Nov. (just in time to miss winter!) to accept a position with the City of San Pablo in Calif. Needless to say I love being back in Calif. and am enjoying a fantastic and challenging new job. The City of San Pablo (near Berkeley) is a small community with one of the most active redevelopment, housing rehab and new residential development programs in the state.

But even more exciting than my new job was my marriage to Andrew Perron on April 21. Andy is also a planner but will return to school this fall to work on his master's in civil engineering.

Any MUP's '76, '77 & '78 are always welcome if you come west.

THOMAS J. MAZZETTA ('77 BUP)

VINCENT M. MUSTO ('77 MUP)
Office: Executive Director
Heighborhood Housing Services
627 Noble Avenue
Bridgeport, CT 06608

Home: 412 Boston Avenue
Bridgeport, CT 06610

I'm starting on my third year (!) as the director of Neighborhood Housing Services in Bridgeport. Our NHS program is doing very well --the staff has grown from 3 to 7, we've now generated over \$1.3 million of housing investment in our neighborhood, and we'll probably expand to a new neighborhood by the end of the year.

I enjoy being on the East Coast, although I'm still a Midwesterner at heart. One advantage of the East which I've discovered is skiing-- hopefully, I'll finish the winter in one piece.

I'm still at the same address and phone as the last 2 years and all visitors are welcomed, if you don't complain about my cooking.

REGINALD T. NIXON ('77 MUP)
Office: Dept. of State Planning

JOHN M. PAGE ('77 MUP)
Office: Planner
DeLeuw, Cather & Company
165 West Wacker Drive
Chicago, IL 60601

Home: 450 West Briar Place, 3F
Chicago, IL 60657

Since graduation I have been involved primarily with three projects for DeLeuw, Cather. I coordinated the assembly of the Environmental Impact Statement for paving and upgrading a portion of the Alaska Highway and the Haines Road in the Yukon Territory, Canada. I was able to make two trips to the Yukon, once in the summer for field surveys and once in the winter for the public hearings. The project also resulted in a paper which I presented at the 1978 AIP Conference in New Orleans. I recently completed work on a project in New Mexico and Texas where we prepared program development and

spending policy guidelines for the property owners associations of two large desert subdivisions. I have also been working on an Environmental Impact Report for a 1.7 mile piece of proposed interstate in Wallace, Idaho. Off the job I am very involved in the single adult program at Fourth Presbyterian Church, Chicago.

Office of Community Development
25 Court Street
Cortland, NY 13045

Home: 41 Lamont Circle
Cortland, NY 13045

I recently co-authored a successful application for a \$1.5 million Small Cities Discretionary Grant from the Dept. of HUD. This grant, to be ad-

ministered over a three-year period, funds such projects as downtown historic preservation, housing rehabilitation for low-income home owners, park and recreational improvements, economic and industrial development, and general city beautification. Community Development provides an interesting forum for planning since the diversity of projects challenges one's ability to utilize maximum skills and creativity. My position here is a flexible half-time one, which allows me to devote the rest of my energies to our third daughter, Amanda Susanne, born last spring (1978).

DAVID M. BERTRAM ('78 BAUP)
164 North Woodlawn
Decatur, IL 62622

CRAIG E. BURNS ('78 BAUP)
Home: 520 West Fayette
Springfield, IL 62704

After graduation in May, I began working with DLE (Dept. of Law Enforcement) as a part of the Graduate Public Service Internship with Sangamon State University. The program allows grad students to work 20 hrs/week in a state agency and enroll in 10 hrs/semester, paid for by the agency. My course of study at SSU is Public Administration with a concentration in Public Management.

At DLE, I am employed in the Planning and Development Bureau, Long Range Planning Section. The Dept. is attempting to establish a participatory long range planning structure. My job is to serve as a staff member to that structure.

My time at DLE is taken up in research for various units of the LRP. I also aid various other sections of the Bureau in the production of research reports.

Belleville, IL 62221

I have been working nine months for the East-West Gateway Coordinating Council as an assistant transportation planner. My duties include doing a Bikeway Feasibility Study for Wellston, MD, preparing the annual transportation report, writing an air quality newsletter monthly, and various ride-sharing promotional activities. I have received one merit raise.

ROBBI RICE DIETRICH ('78 MUP)

Office: Program Officer/Planning

Ozarks Regional Commission

Suite 109, Evergreen Place

1100 North University Avenue

Little Rock, AR 72207

Home: 1 Kingspark Drive

Maumelle, AR 72118

After finishing school in May I came home and found this job about 4 weeks earlier than I really wanted to, started to work immediately, worked 3 weeks, married Jim Dietrich (my boss from a previous internship in Little Rock), honeymooned in the Ozarks for a few days, moved into a home in Maumelle, AR (one of the few successful HUD New Towns) which wasn't finished in time, & haven't slowed down since. Jim is still

working for Metroplan (local COG) & I work as the regional planner for the states of Arkansas, Kansas, Louisiana, Missouri, & Oklahoma. Enjoyed visiting with David Berry, Terry Ball & Susan Rees after the AIP Conference when they stopped at Little Rock on their way back to Illinois.

Springfield, IL 62706

Home: 700 South Durkin, #312

Springfield, IL 62704

I am presently involved in updating Illinois' population projections and reviewing some capital improvement projects through the A-95 process. At the state level in Illinois, A-95 is the only tool available for implementing state policy, and it is becoming an integral part of state government. Little, if any, actual planning is done by this office or any central office and most departments--transportation & conservation, for example--have their own planning sections. Technical assistance positions often are available.

Chicago, IL 60602

Home: 1942 North Richmond
Chicago, IL 60647

From August 1978 to January 1979, I worked for Legal Assistance Foundation as a housing researcher monitoring Chicago's Housing and Community Development Program. January 15, 1979--we had our first child, Sarah Elizabeth. She was born at home--a fantastic experience--the

Monday after the weekend of the great blizzard of '79. Everything went well and we are enjoying her tremendously. Starting in March Sarah and I will be working for Business and Professional People in the Public Interest, monitoring Chicago's Housing and Community Development Program and assisting community organizations to take a more active part in CD. (Things could be entirely different in Chicago given the recent election results--a happy thought.) Husband Peter is an attorney with Legal Assistance Foundation working in the Englewood Office at 64th and Halsted. Likes it very much. We bought a 4-flat in June and are now residing just north of Humboldt Park in a predominantly Latino working-class neighborhood. Also have German, Norwegian, Ukrainian and other neighbors. Very interesting place.

LARRY P. LEVESQUE ('78 MUP)
Office: Neighborhood Housing Servs.
932 East Main Street

P. O. Drawer 3808
McAllen, TX 78501

Home: 513 Miguel Hidalgo Street
San Juan, TX 78589

I am now a division director of research, planning & development of Amigos del Valle, Inc., a Title VII nonprofit organization in South Texas. Programs we have include FmHA 111, 515, HUD 202, OAA Title IV, V, VII, and several others in health, transportation, employment, housing rehabilitation, construction development. My wife works for an architectural firm. We had a baby girl last June. She's growing fast.

108
CYNTHIA DURKO LYNCH ('78 MUP)

Office: Director
Preserve to Enjoy, Inc.
524 Third Street
Columbus, IN 47201

Home: 315 Elmead Court, #3016
Greenwood, IN 46142

I was hired as the Director of a not-for-profit corporation dedicated to furthering the preservationist philosophy in July 1978. Working with funding from the Community Development Dept. (CDBG) I have developed guidelines and procedures for a Revolving Fund for Historic Preservation; the fund will allow Preserve to Enjoy, Inc. to purchase, renovate and resell significant properties in the older residential areas of Columbus, and help ensure the preservation of same through protective covenants. I also "perform" locally, with pro-preservation slide shows, town tours and talks on preservation. Our big spring project will be the production of a three-part, video-taped series on historic preservation in Columbus, eventually to be available state-wide.

My husband Bruce still works for the Historic Landmarks Foundation of Indiana in Indianapolis; hence, we have both turned into commuters, much to our dissatisfaction.

ROBERT E. MABLEY ('78 BAUP)

Office: 6 Ash Street, #200
Cambridge, MA 02138

Home: 2275 Winnetka Road
Glenview, IL 60025

I'm struggling through grad school.
Hi to P. Nicholson, J. Devitt.

SCOTT A. MICHIE ('78 MUP)

Office: Assistant Director
West Bluff Neighborhood Housing
Services
920 West Main, #10
Peoria, IL 61606

Home: 1612 West Barker
Peoria, IL 61606

PETER C. NICHOLSON ('78 BAUP)

552 West 62nd Street
Chicago, IL 60621

DONALD THOMAS NIEMANN ('78 MUP)

Office: Assistant Planner
General Planning Unit
Bi-State Metropolitan Planning Comm.
1504 Third Avenue
Rock Island, IL 61201

Home: 831 21st Street
Rock Island, IL 61201

I began working at Bi-State in October '78 in the general planning unit. My primary responsibilities are in the area of land resources and local assistance. The 5-county region is interesting in that it covers parts of two states (Illinois & Iowa) and extends from very rural areas to a relatively urban one (quad cities). Planning is generally accepted as a legitimate tool for guiding growth in the region (unlike in some other areas of west-central Illinois!), thus making the planning profession much more rewarding and enjoyable.

GREGORY P. RABB ('78 MUP)

Office: Executive Director
Bailey Delavan Community Services
1287 East Delavan Avenue
Buffalo, NY 14215

Home: 142 Playter Street
Buffalo, NY 14212

In addition to serving as Executive Director of a multi-purpose neighborhood based non-profit community organization, I teach economic courses at a local business school. I also serve on the By-Laws Committee of the Upstate New York Chapter of the American Planning Association. In my spare hours I work as a neighborhood delegate to the United Citizens Organization (UCO) of Metropol-

itan Buffalo, an Alinsky style group. I don't have a family but my cat will turn seven this Spring and is doing very well. For all you Buffalo knockers, I'm happy to report that snowfall this year is only 1/2 of what it is normally and that the economic outlook for this region in 1979 is the best it's been in years.

KIRSTEN R. REEDER ('78 MUP)
Office: Resource Assistant
National Trust for Historic Pres'n.
Midwest Regional Office
407 South Dearborn Street, Suite 710
Chicago, IL 60605

Home: 1381 Somerset Lane
Elk Grove, IL 60007

After getting my degree in August 1978, I worked for a couple months as a volunteer with Illinois' Landmarks Preservation Council. I helped organize a state-wide conference of preservation experts to discuss problems in preservation around the state. That was held in September. In October I accepted a job offer from the Chicago office of the National Trust. I started November 1 and have been "happy as a clam" ever since.

I'm living at home now, but as soon as the weather improves (and my bank account) I'll be moving into a place on Chi town's north side.

Office: Environmental Protection
Specialist, Air Enforcement
Branch
U. S. EPA
230 South Dearborn
Chicago, IL 60638

Home: 5422 South Newcastle
Chicago, IL 60638

I will be monitoring industry and state compliance with the Clean Air Act in Minnesota, Wisconsin, and Michigan. So far so good.

DONALD A. SHANE ('78 MUP)
Office: Planner II
Toledo Metropolitan Area COG
420 Madison Avenue
Toledo, OH

Home: 3723 Grantley Road
Toledo, OH 43613

Happy, healthy, and living in Toledo. (Still waiting for M. Steele to finish his master's project.)

DAVID P. SIMON ('78 MUP)
Office: Assistant Planner
City-County Planning Commission
425 East State Street
Rockford, IL 61104

Home: Apt. 304, 222 N. Fifth St.
Rockford, IL 61107

I am a transportation planner at the City-County Planning Commission in Rockford. One of my major tasks is to prepare a plan for reducing transportation-related air pollution

(based on the Clean Air Act of 1977).
I also assist in preparing the TSM &
TIP reports.

FURLONIA SMITH ('78 MUP)

Route 1, Box 271
Letohatchee, AL 36047

DONNA C. STIMPSON ('78 MUP)

Office: Mental Health Planner
Northwestern Connecticut Health
Systems Agency
20 East Main Street
Waterbury, CT 06702

Home: 24 Dryden Drive
Meriden, CT 06450

I began work November 1, 1978. I'm
the mental health planner for two
Catchment Area Councils (CAC's).
These councils were created by
state law & are responsible for de-
termining the need for mental health
services in the community, identify
gaps in service & recommend what
types of services are needed. Due
to the State of Connecticut's goal
of deinstitutionalization (reduc-
tion of the census of state mental
hospitals by 10% each year for 5
years), there is a great need to
provide mental health services in a
community-based setting. When com-
munity grants are available, from
Conn. DMH, the councils determine
what types of services are needed &
recommend approval of various grants
for mental health services in their
area. The Council also reviews &
monitors these services to assure
that these agencies are meeting the
objectives they were established to
try & achieve.

RONALD C. SUNDELL ('78 MUP)

Office: Interagency Coordination
Specialist
Northern Tier Pipeline Team
Bureau of Land Management
700 N.E. Multnomah St., Rm. 1250
Portland, OR 97232

Home: 2254 NW Irving
Portland, OR 97210

I am working for the U.S. Dept. of
the Interior, Bureau of Land Manage-
ment. The BLM was assigned the task
of preparing an environmental
statement on a proposed crude oil
transportation system to be con-
structed from the West Coast to the
Midwest. My position is entitled
Interagency Coordination Specialist.
My job is basically to coordinate
the activities between our technical
team and other federal, state, and
local agencies and provide a commu-
nication link with the public. I do
a fair amount of traveling in the
states of Washington, Idaho, Montana,
North Dakota, and Minnesota. Hope-
fully I'll be doing some traveling
in Alaska soon.

On the personal side, I'm doing a
lot of hiking, cross country skiing
and generally enjoying both the
coast and the mountains. I'll be
getting married to Sue in August.

TERRY E. BALL ('79 MUP)
Office: Program Specialist
International Systems, Inc.
2580 Cumberland Parkway
Atlanta, GA 30339

Home: 106 Noble Woods Drive
Atlanta, GA 30319

Moving to the sun belt has proven to be a warming experience. Brenda & I are very busy and constantly on the move. My primary responsibilities are community development and sewer and water. I'm not sure that being a program specialist in sewage conveys the true nature of my work, but titles can often be misleading. Brenda's life as an accountant has its advantages--I don't have to balance the checkbook and she gets to play with the income tax forms. We are both very happy in Atlanta and are slowly maturing our newly adopted southern disposition.

TIMOTHY R. BEEBLE ('79 MUP)
Office: Senior Planner
100 Hamilton Plaza
Department of Community Development
Paterson, NY 07505

Home: 168 Dundee Avenue
Paterson, NJ 07503

I was recently transferred from the Division of Planning to Paterson's Dept. of Community Development. During the past year and a half I have worked on Paterson's "701" Housing Plan, Housing Assistance Plan, and Capital Improvements Program. In addition I've been working with several resident non-profit development corporations who are involved in developing modular infill housing, constructing housing projects, substantial rehab and conversion of historic mill buildings to housing and commercial space, and encouraging home rehab with low interest loans and matching grants. I have also been involved in developing a number of proposals for Section 8 Neighborhood Strategy Areas, UDAG projects, and state-funded neighborhood preservation projects. Among the major planning accomplishments for Paterson over the past year was the successful challenge of the census' estimate of population, boosting the original estimate by approx. 15,000 which resulted in an increase in revenue sharing, etc. by \$1.2 million. In addition the City was awarded an \$11.4 million EDA Title IX grant, a \$4.2 million UDAG project, and a 100 unit NSA.

Otherwise, life in New Jersey is strange but I haven't died of cancer yet as was predicted by Ken Tichacek. I thoroughly enjoy being 13 miles from Manhattan as well as an hour from the shore.

Ph.D. in Regional Planning

PROPOSED STATEMENT FOR BULLETIN:

Ph.D. in Regional Planning

Coordinator: Head, or designee, Department of Urban and Regional Planning

Doctoral Program

The Ph.D. in Regional Planning is offered by the Department of Urban and Regional Planning in close cooperation with the interdisciplinary program faculty. The program is designed primarily to train researchers and teachers for university positions but also will equip specialized practitioners to fill the needs of the public and private sectors for regional planners with training beyond the master's level. The emphasis of the program is on the social and natural science aspects of land use and the necessary background training in research methodology and planning theory and application.

Admission

A baccalaureate degree equivalent to those granted by the University of Illinois is required. Verbal and quantitative Graduate Record Examination scores should accompany applications. A minimum grade point average of 4.0 (on a scale with A = 5.0) is required. Entering students should have completed the equivalent of one semester of college-level physics, two semesters of college-level chemistry, two semesters of calculus, two semesters of statistics, two semesters of economics, and two semesters of American government. Students who are otherwise qualified may be admitted with deficiencies in these areas. For the science prerequisites, special intensive summer courses may be offered to facilitate removal of deficiencies. All deficiencies may be removed by passing proficiency examinations or by taking regular undergraduate courses after admission to the program, but courses taken for this purpose will not count toward fulfillment of degree requirements.

Requirements

Twenty-four units of credit must be completed. The student entering with only the baccalaureate degree will be required to complete sixteen units course credit and eight units of dissertation credit. The student entering with a Master's degree in planning or a closely allied field generally will be required to complete eight units of course credit and eight units of dissertation credit. The student's program will consist of courses (some required) in Planning Research Methodology, Planning Theory and Application, Social Science Elements of Land Use, Natural Science Elements of Land Use, and Electives. The student must pass a written qualifying examination, as well as oral preliminary and final examinations.

Master's Degree

A master's degree in Urban and Regional Planning, Landscape Architecture, or some other discipline may be earned prior to completion of the

Ph.D. if so arranged by the student with the approval of his or her adviser. In order for this to be done the student must be admitted to and satisfy the appropriate requirements of the master's degree granting department.

Planning Council Members

 and County School Districts - The Issues, Problems, and Incentives
 towards Consolidation
 Guy Groner: Methodology for Analysis of Potential for Urban Development on
 a Regional Scale, Using Monroe County, Illinois, as a Sample Case
 Ai-Li Hwang: A Case Study of the Impact of the Abandonment of a Railway
 Line - Green and Dane Counties, Wisconsin
 Elizabeth Katsaros: Towards a New Partnership in Community Development:
 Community Organizations and the Housing and Community Development Acts
 of 1974 and 1977
 Larry Levesque: The Construction Specialist in the N.H.S. Neighborhood
 Preservation Model
 Charles Neale: Coping with Decline: A Case Study of Three Declining Cities
 --St. Joseph, Missouri; Youngstown, Ohio; and Lowell, Massachusetts
 Charles Nellans: Fiscal Impacts of Downtown Redevelopment in St. Louis
 D. Thomas Niemann: Environmental Perception Studies as a Means of Increas-
 ing Planner/Citizen Participation
 Olayinka Olanipekun: Optimal Transportation Network: A Case Study of
 Western Nigeria
 John S. Page: Housing Rehabilitation: New Solutions to Old Problems
 Delmer Powell: Exploration of a Technique for a Basic Planning Study
 William N. Powers: Annexation as a Growth Management Technique in Illinois
 Gregory Rabb: Manpower Planning for Buffalo's Black Teenagers: A Case
 Study
 Kirsten Reeder: Illinois Preservation Commissions: Some Mechanisms for En-
 hancing Their Roles
 Susan Rees: Allocation of Public Service Employment Jobs in CETA

Master's Project/Thesis Topics - continued

- Robbi Rice: The Municipal Income Tax as One Solution to Fiscal Dilemmas Facing Local Governments
- Donald Shane: Incorporation of Agriculture into the Comprehensive Planning Process
- David Simon: Citizens' Advisory Committees in Transportation Planning
- Kuo-Lon Soong: Arts in Parks and Recreation Settings in Illinois--An Inventory
- Leo Sterk: Hiring the Complete Planner
- David Stern: SCAPP: Program for Selecting Candidate Areas for Power Plants
- Donna Stimpson: A Mental Health Needs Assessment Study of Champaign County (Using Socio-Economic Indicators)
- Ronald Sundell: The Middle Fork of the Vermilion--A Decade of Controversy
- Nuntana Suwanamalik: The Realized and Potential Economic Impacts of Lake Shelbyville on Shelby and Moultrie Counties
- Gregory Thornbury: Flood Related Land Use Allocation Model
- Marvin Tick: Park Forest South: Development Methodology and Scenario
- Herbasuki Wibowo: Balanced Growth: A Possible Answer to Planned-Development Problems in Indonesia
- Anthony Wood: Historic Preservation: Entering the "Planning Stage"

Selected Publications
Bureau of Urban and Regional Planning Research

- Planning for the Arts. . . Magic to stir men's blood.* Proceedings of the Third Annual Winter Conference on Planning, Lachlan F. Blair (ed.), January 1978.
- Planning for Neighborhoods, Cities and Regions.* Proceedings of the 1978 Institute on Zoning and Planning, Clyde W. Forrest (ed.), June 1978.
- Innovation and Action in Regional Planning.* Selected papers from the 58th Annual Conference of the American Institute of Planners, October 1977.
- Historic Preservation: Setting, Legislation and Techniques.* Proceedings of the Second Annual Winter Conference on Planning, Lachlan F. Blair and John A. Quinn (eds.), January 1977.
- Planning - Where We Live.* Proceedings of the 1977 Institute on Zoning and Planning, John A. Quinn and Clyde W. Forrest (eds.), June 1977.
- Intergovernmental Planning: Approaches to the "No Growth" vs. "Growth Is Good" Dilemma.* Proceedings of the 1976 Institute on Zoning and Planning, John A. Quinn and Clyde W. Forrest (eds.), June 1976.
- Land Resources: A Rationale for Policy, Planning and Procedures.* Proceedings of the 1975 Institute on Zoning and Planning, John A. Quinn (ed.), June 1975.
- Zoning: Mirror of Crisis.* Proceedings of the 1971 Institute on Zoning and Planning, Clyde W. Forrest (ed.), May 1971.
- Change: The Recurring Zoning Issue.* Proceedings of the 1970 Institute on Zoning and Planning, Clyde W. Forrest, Fred B. Moore, and Allan R. Titsworth (eds.), May 1970.
- Zoning Is Planning.* Proceedings of the 1969 Institute on Zoning, Clyde W. Forrest and Richard K. Joy (eds.), 1969.
- Poverty, Planning, Participation and Law.* Proceedings of the Institute on Law and Planning, Clyde W. Forrest and Fred B. Moore (eds.), November 1969.
- A Guide for Municipal Zoning Administration, with Forms.* R. Marlin Smith, Clyde W. Forrest, and Eric C. Freund, 1972.
- Planning and Public Policy*
 Vol. 4, No. 3, August 1978, "Orderliness and Participation in Regional Design: The Case of the Dutch IJsselmeerpolder," Claude Winkelhake.
 Vol. 4, No. 3, November 1978, "Overcoming the Dual Housing Market through Affirmative Marketing," Dudley Onderdonk.
 Vol. 5, No. 1, February 1979, "Rationalizing the Railroads: A New Planning Process," James M. Friedlander.
 Vol. 5, No. 2, May 1979, "Downtown Redevelopment in Five Cities," David Berry.
